Welcome to our Careers in Economics Event!

We know that many of you are considering careers where you can use the economics you’ve been learning, whether in the private or the public sector. This event, developed and hosted with the support of the Economics Faculty, will give graduate and undergraduate students the opportunity to do just that.

You will also find relevant economics-related job advertisements in VACANCIES & OPPORTUNITIES at www.careers.cam.ac.uk. This gives details of immediate graduate vacancies as well as vacancies available to you during the vacation, or after you have graduated. Better still, store the search profiles which reflect your interest and we will email you the moment we learn of relevant opportunities. In addition, you will now find a relevant Careers Sector on our site at: www.careers.cam.ac.uk/sectors/economics/

More generally, economics can give you a good grounding on which to build almost any career and, indeed, some economists decide to take the skills and aptitudes they’ve developed at Cambridge and apply them in the workplace. The vast majority of employers who recruit here are not specific about the academic discipline of their applicants – rather they are looking for intellectual curiosity, for numeracy, for commercial awareness and for team skills. See our website for lots of other options and for details about the first destinations of Cambridge economics graduates.

We hope you enjoy the event!

NOTE:
A Cambridge Economics graduate and member of the Government Economics Service Ambassadors Careers Outreach Programme will be attending (based in the entrance lobby of the building).

The GES is the UK's largest recruiter of economists, with over 1400 professionals in more than 30 Departments and Agencies. They are involved in all aspects of Government policy.
The Brattle Group
Consultancy and expert testimony in economics and finance
Website: www.brattle.com   Email: recruiting@brattle.com

We combine in-depth industry experience and rigorous analyses to help clients answer complex economic and financial questions in litigation and regulation, develop strategies for changing markets, and make critical business decisions. We are distinguished by our credibility and the clarity of our insights, which arise from the stature of our experts, affiliations with leading international academics and industry specialists, and thoughtful, timely and transparent work. For the third consecutive year, Brattle has been recognized in the Vault Consulting 50 as a top 10 consulting firm to work for and the highest among economic consulting firms. With staff of nearly 300, we have offices in Boston, New York, San Francisco, Washington DC, Toronto, London, Madrid, Rome, Sydney.

Graduate recruitment:
Graduate vacancies: Research Analysts (RAs) and Associates.
Graduate degree disciplines: RAs: Min 2.1 in a quantitative field (economics, maths, engineering or physical science); Master’s is desirable. Associates: PhD in economics, finance, engineering or related field with a strong foundation in quantitative analysis and/or several years of relevant work experience.

Application process and deadlines: Submit the following via our website: cover letter, CV, transcripts and writing sample/research paper (Associates only).

Internship programme/work experience:
Opportunities: Our internship role will provide you with the opportunity to apply the economic concepts you’re learning in the classroom in a professional services setting. It will also help you to improve your research and data analysis skills. You will work alongside internationally recognized experts in financial economics, corporate finance, energy, competition and regulatory economics. Assignments might include providing in-depth research, summarizing documents, and auditing and contributing to the creation of financial, economic and operational models. You will work in a cooperative and fun atmosphere that melds dedication to project success and individual professional development. Work environment casual, atmosphere collegial with significant, on-going contact between senior and junior staff.

Internship application process and deadline: Please submit the following via our website: cover letter, CV and transcripts.
CEPA, from offices in London and Sydney, advises clients worldwide including: governments; regulators; international and non-governmental organisations; private companies, foundations and consumer groups. The firm’s core sectors are: energy; water; transport; agriculture; health; infrastructure; financial services and communications & media.

Within these sectors, CEPA’s services include: Policy & economics - micro and macro-economic principles across the spectrum of public policy issues.

Regulation & Competition - supporting regulators, regulated companies and major users / consumers in analysing different aspects of regime design and price determinations.

Review & evaluation - evaluating organisational performance, programmes and interventions.

Strategy & finance - conducting market analyses, design and implement governance structures and institutional reforms in multi-stakeholder partnerships.

Transaction advisory - providing support throughout the project cycle.

Graduate recruitment:

**Graduate vacancies:** CEPA is looking for junior economists to work from London. Junior economists will initially work across all our practice areas, but will develop a specific focus over time. Key responsibilities will include: Economic research and analysis; producing reports and other client deliverables; helping with business development, bids and day-to-day operations.

**Graduate degree disciplines:** Candidates should have a postgraduate degree. However, we will consider those with a 2:1 or above in an undergraduate degree relating to Economics.

CEPA welcomes applications from all sections of the community and is committed to treating employees equally regardless of race, gender, disability, age, sexual orientation, religion or belief.

**Application process and deadlines:** CV and cover letter to careers@cepa.co.uk or via www.cepa.co.uk.
Compass Lexecon offers independent analysis and advice to clients engaged in legal and regulatory proceedings. Whether relating to competition policy, litigation or regulatory review, we provide a clear understanding of the economic issues and present effective solutions, backed by solid and persuasive empirical evidence.

We have advised on some of the most high-profile cases before the European Commission, the General Court and national competition authorities and regulators in recent years. We have the highest number of competition specialists in the industry, with a global team of over 430 professionals and affiliates, including 150 Ph.D. economists and two Nobel Prize winners.

Graduate recruitment:

Graduate vacancies: Analyst positions (for those with a Bachelors or Masters in economics) and Economist positions (for those with a Ph.D. in economics).

Graduate degree disciplines: For Analysts, we require Masters in Economics from a leading university, ideally having studied industrial organization and/or econometrics. We also consider undergraduates who have obtained or expect to obtain a first class degree in economics. Economist positions are available to individuals with a Ph.D. in Economics from a leading university.

Internship programme/work experience:

Opportunities: Internship start dates and durations are flexible. Interns typically join us for 8 to 12 weeks during, in-between, or shortly after completing their economics degree.

For more than twenty-five years, Cornerstone Research staff have provided economic and financial analysis in all phases of commercial litigation and regulatory proceedings.

We work with a broad network of testifying experts, including prominent faculty and industry practitioners, in a distinctive collaboration.

Our staff consultants contribute expertise in economics, finance, accounting, and marketing, as well as business acumen, familiarity with the litigation process, and a commitment to produce outstanding results. The experts with whom we work bring the specialized expertise of researchers or practitioners required to meet the demands of each assignment.

**Graduate recruitment:**
- **Graduate vacancies:** Analyst
- **Application process and deadlines:** Seeks well-rounded, enthusiastic individuals who have demonstrated excellent academic performance. Those with strong analytical backgrounds, computer skills, and interest in business and economics encouraged to apply.

**Internship programme/work experience:**
- **Opportunities:** Summer Analyst
CRA International
Economic, financial and strategy consulting

- **Opportunities:** Intern (Summer 2018) in multiple practice areas and locations. See website for additional details.
- **Internship application process and deadline:**
  - Intern (Summer 2018) - antitrust and competition economics - 16 March 2018.
CRU Group
Commodities Market Analysis and Consultancy

Website: www.crugroup.com
Contact: Yasmin Dunwell
Telephone: 0207 903 2000
Email: recruitment@crugroup.com

CRU is a global business with offices in major commodity producing, consuming and trading hubs around the world. CRU's reputation with customers is for integrity, reliability, independence and authority. We are known for the quality of our work – our data, our views, our models – and this quality is based on our twin commitment to primary research and robust, transparent methodologies.

The requirement for exclusive, first-hand knowledge has driven us to invest in a global team of analysts, the key to gaining a real understanding of critical, hard-to-reach markets such as China. CRU's people – whether delivering market outlooks, price assessments, cost analysis, consulting or conferences – focus on helping customers to make important business decisions.

Graduate recruitment:

Graduate vacancies: Analysts and Consultants
Graduate degree disciplines: Degree educated with a relevant first degree in economics or other numerate/related discipline.
Higher degree in economics or other numerate/related discipline would be an advantage.

Application process and deadlines: Ongoing. All opportunities are advertised on our company website: www.crugroup.com

Internship programme/work experience:

Opportunities: Internship opportunities during summer vacation.
Internship application process and deadline: details via: www.crugroup.com
Frontier Economics is one of the largest micro-economic consultancies in Europe with offices in Berlin, Brussels, Cologne, Dublin, London, Paris and Madrid. We work with private, public and voluntary sector clients worldwide and apply our economic toolkit to help clients understand complex challenges. While our analysis may be complex, we provide clear and honest advice to client's using plan language. Our expertise is broad, not just microeconomics, but finance, statistical modelling, game theory, market research and even behavioural economics. We've worked in almost every sector imaginable - fertilisers and oil rigs to hand-bags and iPads. Our culture is open-minded, friendly and non-hierarchical.

**Graduate recruitment:**

- **Graduate vacancies:** Analysts in all offices. A 2-year training programme working across all of our practice areas in small teams with exposure to clients, training and mentoring. Your career will develop quickly, developing skills in building client relationships, understanding difficult markets and applying economic techniques.

- **Graduate degree disciplines:** Standard entry has economics focus, min 2:1 with a Masters, but undergraduate applications are accepted. An intuitive understanding of microeconomics, willingness to tackle real-world problems and build good working relationships with clients.

- **Application process and deadlines:** Online by 8 January via [careers.frontier-economics.com](http://careers.frontier-economics.com), including subjects and grades.

**Internship programme/work experience:**

- **Opportunities:** 8-weeks or more during the summer. Recent graduates can also join us for 6-months to a year. From day one you will work on one or two projects in any of our practices making a valuable contribution, whether you are writing a report or running a regression. You will have client contact and be working alongside consultants, managers and directors. The work will be varied and you will have an experienced Consultant as your mentor. Please see our brochure and website on life as an Intern at Frontier.

- **Internship application process and deadline:** As above by 8 January. 2nd year economic degree students upwards.
FTI Consulting
Advisory firm including Economic and Financial Consulting practice
Website: fticareers.co.uk/graduates

FTI Consulting's Economic and Financial Consulting (EFC) practice has offices in cities across the world, with more than 250 staff worldwide.

Our EFC practice provides corporations, law firms and government agencies with analysis of real world and complex economic and financial issues. These insights are used to inform legal and regulatory proceedings, strategic decisions as well as public policy debates.

Graduate recruitment:
   Graduate vacancies: In London, our EFC practice has more than 120 staff and each year we look to recruit at least 15 highly capable graduates.
   Graduate degree disciplines: 2:1 or above.
   Application process and deadlines: Please apply using the online application form at http://fticareers.co.uk/graduates/efc/

Internship programme/work experience:
   Opportunities: The Summer Internship programme lasts eight weeks. As an intern you will:
   gain an insight into life at a global economic consultancy;
   work directly on a case as part of a small project team;
   receive training in valuation methodologies, principles of economic regulation, and consulting skills.
   Internship application process and deadline: 31 January 2018 - see http://fticareers.co.uk/graduates/efc/.
The IFS is Europe’s leading centre of microeconomic policy research, established as an authoritative commentator on the public finances, tax and welfare policy, tax law, education, inequality and poverty, pensions, productivity and innovation, consumer behaviour and, more recently, the evaluation of policies designed to promote development in poorer countries. It is a politically independent registered charity aiming to bridge the gap between policymakers and academics.

The IFS aims to bridge the gap between purely academic research and issues of practical policy design or evaluation. It strives to be at the forefront of UK and international research in its chosen fields, but also places a high priority on the policy relevance and communication of its research.

**Graduate recruitment:**

- **Graduate vacancies:** We aim to appoint 2 or 3 Research Economists. We are also recruiting for post-doctoral fellowships.
- **Graduate degree disciplines:** Minimum 2.1 in an economics-related undergraduate degree course or a relevant Master's degree. We also welcome applicants with a PhD in economics or experience in economic research.

**Internship programme/work experience:**

- **Opportunities:** Placements for summer 2018 will be six weeks long and are intended to give a taste of research work at the IFS similar to that done by newly-recruited permanent research staff. As such, the work is most likely to be appropriate for individuals currently studying for undergraduate or masters degrees, rather than more advanced students. During a six-week placement, a Summer Student might typically expect to work for an IFS research team on tasks such as reviewing existing literature, preparing and analysing data, and writing up research results.
- **Internship application process and deadline:** 19 January 2018. Candidates will be selected on the basis of a short interview, which will take place at our offices in central London.
NERA Economic Consulting

International Firm of Economists

Website: [www.nera.com](http://www.nera.com)
Contact: Emma Cairns
Telephone: 0207 659 8500
Email: londonrecruitment@nera.com

NERA Economic Consulting is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For half a century, NERA’s economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world’s leading law firms and corporations.

With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.

**Graduate recruitment:**

Graduate vacancies: We provide challenging opportunities to those eager to take on the responsibility and who want to make an impact early in their career. We welcome applications from PhD, masters, and final-year undergraduate students.

Graduate degree disciplines: Candidates should hold a Masters (or PhD) in economics, econometrics, finance or a related discipline with an exceptional academic record. Candidates should demonstrate excellent oral and written communication skills in English. Additional fluency in other European languages would be preferred. Minimum 2:1

Application process and deadlines: Please submit your full academic CV, cover letter, transcripts and writing sample on our career site ([www.nera.com/career](http://www.nera.com/career)). Rolling recruitment.

**Internship programme/work experience:**

Opportunities: Summer internship opportunities are offered to students in the final year of their undergraduate degree, embarking on a Masters, or students in the penultimate year of their postgraduate studies.

Internship application process and deadline: Please submit your full academic CV, cover letter, transcripts and writing sample on our career site ([www.nera.com/career](http://www.nera.com/career)). Rolling recruitment.
The Office for National Statistics is the UK’s largest independent producer of official statistics and its recognised national statistical institute. We are responsible for collecting and publishing statistics related to the economy, population and society at national, regional and local levels. We also conduct the census in England and Wales every 10 years.

Graduate recruitment:

Graduate vacancies: The Office for National Statistics are recruiting across the four analytical professions. To apply, register on the Civil Service jobs website (www.civilservicejobs.service.gov.uk) and complete the online application form.

Graduate degree disciplines: Typically, higher degree (e.g. MSc, PhD) or first or second class honours degree in subject containing formal statistical training; 2.1 with minimum of 50% economics; 2:1 in relevant social science (with a substantial social research or social statistics component) or 2:2 with relevant postgraduate qualification in social research or statistics.

Application process and deadlines: Competency based application/interview. Some analytical posts require completion of an online sift test, a data analysis & dissemination test prior to interview and presentation.

Internship programme/work experience:

Opportunities: Summer placements are available.

Internship application process and deadline: The application process is dependent on the business area, information on how to apply will be available at the event.
ODI's prestigious Fellowship Scheme gives postgraduate economists and statisticians the chance to work in developing country public sectors as local civil servants on two-year contracts.

The Scheme has two objectives: to provide developing country governments with high-calibre junior economists and statisticians where there are gaps in local capacity; and to give postgraduate economists and statisticians practical work experience in a developing country.

Since 1963 we have sent more than 1,000 economists and statisticians on two-year postings to more than 40 countries across Africa, Asia, the Caribbean and the Pacific, with many going on to successful careers in government, multilateral institutions, academia and the private sector.

More than one hundred Fellows are currently in post.

Graduate recruitment:

**Graduate vacancies:** Vacancies for economists and statisticians in Africa, the Caribbean and the Pacific.

**Graduate degree disciplines:** The scheme is open to candidates of all nationalities provided they have a master’s degree or PhD in economics, statistics or a related discipline.

Postings are determined primarily by the needs of partner governments rather than the preferences of candidates themselves.

**Application process and deadlines:** Application is via the online form: [https://www.odi.org/odi-fellowship-scheme](https://www.odi.org/odi-fellowship-scheme)
Oxera Consulting LLP
Microeconomics consultancy
Website: www.oxera.com/careers Contact: Maria Farias
Telephone: 01865253000 Email: HRQueries@oxera.com

Oxera is one of Europe’s leading microeconomics consultancies. We advise companies, policymakers, regulators and lawyers on any economic issue connected with competition, finance, regulation, state aid and litigation, in sectors ranging from utilities to financial services, via the film industry, IP and high-tech and many more. We explain complex economic issues in plain terms and have a reputation for credibility and integrity among those we advise. Working at Oxera means contributing to projects from day one. You’ll be part of the team, working with some of the brightest and most experienced minds in the industry. We value a good work–life balance and diversity of background and thought.

Graduate recruitment:
Graduate vacancies: 8–10 Analysts
Graduate degree disciplines: The ideal candidate will have a postgraduate degree in economics, econometrics or finance with a solid background in microeconomics. Knowledge of programming languages such as SQL, R and Python is advantageous. Alongside excellent written English, we welcome fluency in a second European language, particularly French, Italian, German or Dutch.

Application process and deadlines: Via www.oxera.com/careers. Applications close when positions are filled.

Internship programme/work experience:
Opportunities: Oxera offers a wide range of internship opportunities across our five offices. Many interns return after their placement as permanent employees. The ideal candidate will have (or will be working towards) a postgraduate degree in economics, econometrics or finance with a solid background in microeconomics. Knowledge of programming languages such as SQL, R and Python would be advantageous.

We are looking for candidates who can demonstrate an ability to build client relationships and manage projects. As well as having excellent written and spoken English, we are especially keen to hear from people with fluency in a second European language, particularly French, Italian, German or Dutch.

Internship application process and deadline: As above
Oxford Economics was founded in 1981 as a commercial venture with Oxford University’s business college to provide economic forecasting and modelling to UK companies and financial institutions expanding abroad. Since then, we have become one of the world’s foremost independent global advisory firms, providing reports, forecasts and analytical tools on 200 countries, 100 industrial sectors and over 4,000 locations.

Graduate recruitment:

**Graduate vacancies:** Our Graduate scheme provides comprehensive training in applying economic understanding to real world issues. If you are successful, you will be doing work that matters from your first week, gaining exposure to many areas of our business. At every stage your work will be supported by a training programme.

**Graduate degree disciplines:** First or upper-second class degree in economics or a closely related subject from a top university. A Masters degree in economics is desirable but not essential.

**Application process and deadlines:** Our next graduate training scheme starts in September 2018. Send CV and a cover letter to recruitment@oxfordeconomics.com before 31 December 2017.

**Internship programme/work experience:**

**Opportunities:** Summer Internships available. Please check the careers page on our website for more details.

**Internship application process and deadline:** Please visit the careers page on our website to download an application form. The interviews will take place around Easter 2018

Oxford Economics Biography - Taha Saei

**Higher Degree:** Bachelor & Master degrees in Economics

Prior to joining Oxford Economics, Taha completed his bachelor and master degrees in Economics from LSE. He specialized in monetary economics and completed his dissertation on modelling the macro-economic impact of oil price shocks on small open economies.
Economics Consulting advises clients in the public and private sectors on complex business and policy issues including investigations and commercial disputes, market reform, and strategies for growth.

**Graduate recruitment:**
- **Graduate vacancies:** Graduate jobs in Economics Consulting.
- **Graduate degree disciplines:** We look for a minimum 2:1 in an Economics-related undergraduate degree
- **Application process and deadlines:** Apply via pwc.com/uk/careers. Application Deadline date - 5 November 2017. Please call our recruitment helpline if you have any questions on 0808 100 1500.

**Internship programme/work experience:**
- **Opportunities:** Summer Internships in Economics Consulting.
- **Internship application process and deadline:** Apply via pwc.com/uk/careers. Application deadline - 7 January 2018.
Please call our recruitment helpline if you have any questions on 0808 100 1500.
RBB Economics LLP
Specialised Competition Economics Consultancy Firm
Website: www.rbbecon.com  Contact: Andrew Tyler
Telephone: 02074212400  Email: vacancies@rbbecon.com

RBB Economics is one of the largest European competition economics practices, with offices in London, Brussels, Paris, Madrid, Stockholm, The Hague and Düsseldorf as well as in Johannesburg and Melbourne. We provide professional, independent economic advice on competition policy matters, applying the latest advances in economic theory, statistical and econometric techniques in helping our clients address complex competition challenges. We work in dedicated, multi-national teams which combine the experience and expertise relevant to each case. The work is stimulating, challenging, demanding and rewarding. We give our staff opportunities to flourish professionally, including early responsibility for our work product and to engage directly with clients and their legal advisors as well as with competition authorities.

Graduate recruitment:
Graduate vacancies: Exceptional economists with outstanding academic credentials. We need people who have the skills and outlook to flourish in an intellectually rigorous and challenging professional environment, who can use economics in practice; people who work well in a team and have strong written and oral communications skills.
Graduate degree disciplines: We usually look for postgraduates, but we do offer places to some undergraduates, with a likelihood that we would sponsor an MSc after one or two years with the firm. A particular interest in industrial organisation is welcomed.
Application process and deadlines: Two-stage interview, checking your practical application of economics, and your ability to express yourself in writing and orally.

Internship programme/work experience:
Opportunities: Short summer internships to candidates who might be thinking about a career in competition economics once their studies are over. These can be taken up at any of our offices. On a number of occasions, these internships have resulted in permanent positions either at the conclusion of the placement or on completion of studies.
Internship application process and deadline: No deadline, for European locations we recommend applying at the very beginning of the year.
RSM PACEC Ltd
Website: www.pacec.co.uk
Contact: Emma Smith
Telephone: 0121 2143100
Email: student.recruitment@rsmuk.com

RSM is a leading provider of audit, tax and consulting services to middle market leaders, globally. We empower clients to move forward with confidence and realise their full potential. With around 3,500 partners and staff in the UK and access to more than 37,500 people in over 110 countries across the RSM network, we can meet our clients’ needs wherever in the world they operate.

Graduate recruitment:
Graduate vacancies: Consultant assistant
Graduate degree disciplines: Minimum of 280 UCAS points and minimum of 2.1 degree
Application process and deadlines: Apply online at:
www.rsmuk.com/careers
Vivid Economics
Strategic economics consultancy
Website: www.vivideconomics.com  Contact: Careers
Telephone: 08448000254  Email: careers@vivideconomics.com

Our key practice areas are natural resources, growth and development, and energy and industry. We work with government departments, multilateral development banks, development organisations and the private sector to help them respond to challenges and opportunities. We are a top consultancy provider on policy design at international and national level, commercial strategy and planning, mitigation of emissions, adaptation to climate change, investment, infrastructure, innovation and economic growth, with a thorough understanding of related financial and scientific issues. Our frameworks of analysis offer insight on the effects of policy on prices, market shares, firm profits, emission and abatement incentives, network regulation and growth. We strive to create lasting value for our clients, and society at large.

**Graduate recruitment:**
- **Graduate vacancies:** We are likely to be hiring around 10 graduates.
- **Graduate degree disciplines:** Candidates will be assessed on their merits, a minimum BSc in economics (or related), and most of our full-time economists hold an MSc in economics.
- **Application process and deadlines:** Applications are made via the link on our website, please keep checking for future opportunities.

**Internship programme/work experience:**
- **Opportunities:** Summer internships will be advertised in January
- **Internship application process and deadline:** Rolling applications deadlines noon 6 November and noon 11 December.

**Vivid Economics profile- Charlie Dixon**

**First Degree:** London School of Economics

**Higher Degree:** University of Cambridge

Charlie joined in October 2013. He has led research efforts for a range of projects and provided key quantitative inputs for scenario modelling and financial analysis including estimating the mitigation effort of European countries using implicit carbon prices and projecting the costs of carbon in a range of key developed countries. He also has significant expertise in comparative policy analysis including the costs and incentives for investment in climate-resilient infrastructure. Charlie previously worked as an economist intern at the UK Foreign and Commonwealth Office.
