

Consultancy Directory

A listing of management, strategy, and specialist consultancies
University of Cambridge Careers Service
2022 - 2023

Welcome

This directory of consultancies has been collated to bring University of Cambridge students, graduates, postgraduates, and Alumni an overview of consultancy firms by sector.

The firms included in the directory are collated from several resources, including:

- Firms who currently or have previously recruited from Cambridge
- Firms that appear in national rankings or industry listings
- Firms that Cambridge graduates have told us they work for after graduation
- Firms collated from our own research

We list all these firms ready to hear feedback from candidates who have been through their recruitment process or who currently work for them – so if you would like to share your experiences we look forward to hearing from you.

The list is not exhaustive, nor does it serve as a recommendation on the firms' suitability for your own needs and ambitions. We expect you to do your own individual research, speak to employees and attend recruitment events to find out more before applying.

Our aim is that the directory introduces you to firms beyond those you already know and encourages you to think more deeply about where you will spend your early career.

For more help with choosing a firm or understanding consultancy as a sector, come along to our training sessions and events which usually happen in Michaelmas and Lent.

The Consultancy Careers Fair happens early in October.

You can also visit www.careers.cam.ac.uk and our [YouTube channel](#).

We hope you find this guide to be of value in your search for your next opportunity.

University of Cambridge Careers Service

How the consultancies are listed

- There are ~350 firms listed in this directory
- The descriptions are those provided by the firm, usually from the 'About us' or 'Careers' section on their website. Some firms are more descriptive than others, so use the website to dig further.
- The directory is broken into firms by their primary sector or the main function of their work. This does not mean they don't service other areas but for ease we select the dominant function.
- It cannot be understated that the terms 'Management' and 'Strategy' Consultancy are broad terms and deal with several different issues, sectors, and functions. There are firms which could sit in multiple sectors and so we hope the short description of the firm will support your further understanding of their work.
- If you are very keen on a function that could be used in multiple sectors, for example 'digital' you can use a 'find' search to see its appearances in the guide.
- The guide lists firms A-Z in their category. To save scrolling, when viewing online you can hover over each firm in the contents page and select 'Ctrl + Click link' will take you to the firm in question.

University of Cambridge Careers Service

Boutique firms (various specialisms)

AMR International Ltd

AMR International is a boutique strategy consulting firm consistently delivering value to its clients – for over 25 years. In this time, we have worked on 2000+ projects, with our feet on the ground in more than 40 countries.

Cartesian Ltd

Cartesian is a boutique consultancy specialized in the telecoms and digital media industries. We support clients from across the globe at our offices in the UK, US, and France. Our clients include TV broadcasters, content studios, internet providers, and industry regulators. At Cartesian's strategy consulting practice, we combine strategic, commercial, and technical skillsets to support clients aiming to grow and transform. Recent strategy work includes edge computing market sizing, fibre network rollout financial modelling, and identity fraud detection with password sharing analysis.

Cognosis

Cognosis are a London-based boutique strategy consultancy. We unlock revenue growth potential for businesses and brands. We are a small but experienced business; for over 20 years, we've been igniting growth for clients across more than 60 countries. Our specialism is building commercially credible growth strategies that engage leaders and their teams. This means our work centres on competitor, portfolio and group-wide business strategy. We work across multiple sectors with many exciting and instantly recognisable clients and brands. Recent projects have seen us working with ABInBev, Odeon, Clarks, Intercontinental Hotel Group, Sport England and AkzoNobel.

Complete Strategy Ltd

Complete Strategy is a boutique consulting firm operating in the regulated sectors, advising UK regulators, companies and investors on strategy and regulatory change, with a particular focus on the energy and utilities sector. We combine top-tier consulting experience with the flexibility of a small, highly networked company. We are strategists, who work alongside our clients to respond to, and deliver, regulatory change. We focus on providing practical advice to our clients – we are known for converting strategy into success. We provide a wide range of services to our clients: Strategy - We advise and provide support to organisations who face disruptive market, policy and regulatory change. We help with business strategy, regulatory strategy, market entry strategy, investment strategy (commercial and regulatory due diligence) and market design. Regulation and Economics - We use economics and rigorous analysis to untangle difficult business problems. We support companies and regulators through price reviews and through regulatory investigations and disputes. We advise investors on how changes in market and regulatory conditions might affect the performance of their assets. Programme Delivery - We are experienced programme and project managers, with a track record of leading successful business and industry-wide change programmes. We have practical experience of helping organisations respond to regulatory and policy change in a structured, timely manner, focused on outcomes and deliverables.

Corporate Value Associates

CVA is a global strategy boutique, with offices across Europe & the Middle East, the Asia-Pacific region, and in the US. We provide highly bespoke advice rather than off-the-shelf consulting to large corporates (often household names) at their national, regional, and global levels. Although a boutique, we work in many industry verticals, with a current focus on Energy & Utilities, Mobility, Financial Services, Mining & Agri-Foods, as well as a number of crossover areas such as New Retail Models and Digital Innovation. At CVA you will be working with a friendly, non-hierarchical group of people spanning different nationalities and backgrounds. We are a vibrant close-knit community based in Soho, working in small teams offering

exceptional exposure to partners and senior client teams from day one, on projects both in Europe and further afield.

Farsight Consulting Ltd

We are a boutique consultancy specialising in business, information and technology, helping our clients transform their organisations and services. From Day 1 we offer our employees a unique opportunity to make a real difference in the work they do through our diverse client portfolio which includes government departments, not for profit organisations, charities and technology companies. Developing our people is at the heart of everything that we do and we provide you with the space and time to dedicate to coaching and building your skills; we will then provide you with the opportunities to continue to develop on projects. We will give you the tools to operate at the highest level, with a collaborative team who have diverse experiences to coach and collaborate with you.

Frazer-Nash Consultancy Ltd (FNC)

Frazer-Nash is a leading systems, engineering and technology company. We help organisations deliver innovative engineering and technology solutions to make lives safe, secure, sustainable, and affordable.

Humatica

Humatica is a boutique management consultancy. We partner with private equity firms and their portfolio companies to accelerate value growth.

Launchworks & Co

Launchworks & Co is a strategy advisory boutique firm specialising in digital platforms and ecosystems.

SaxoTech Ltd

SaxoTech is a boutique data analytics consultancy based in London SW10. Our diverse talent helps businesses capture market opportunities by leveraging data analytics and digital technologies.

STL Partners

STL Partners is a boutique research and strategy consulting firm which has been at the forefront of digital business model innovation in the Telecoms-Media-Technology (TMT) sector since 2006. STL Partners offers telecoms operators and technology companies highly creative consulting strategy support to help them identify and realise growth opportunities. We work across a range of technologies including 5G, edge computing, and AI, and have expertise in a number of industries such as healthcare, manufacturing, and energy. Our customers include international blue-chips such as Vodafone, Huawei, Intel and Nokia, as well as smaller, niche vendors. The company is based in London and operates globally.

Brand & Marketing consulting

Brand Finance Ltd

Founded in 1996, Brand Finance is the world's leading independent brand valuation and strategy consultancy. Headquartered in the City of London, we are present in over 20 countries.

Distinction Consulting

We're a board level B2B strategic marketing consulting resource for ambitious leaders and investors looking to transform their brands and businesses. Located in Manchester, we're hands-on, straight-talking, collaborative and fun.

Interbrand

Interbrand has been the world's leading brand consultancy, for over 40 years – having pioneered iconic work and forged many of the brand building tools that are now commonplace. We know that in an age of abundant choice and speed of innovation, customers' expectations are moving faster than businesses. While incremental change is still essential, it's no longer sufficient. It takes bold moves to leap ahead of customers and competitors. We call these moves iconic moves. In collaboration with many of the world's leading brands, our global team of thinkers and makers are pioneering the future of brand building. By turning customers into active participants, we help our clients strengthen their brands on an ongoing basis – our approach gives them the confidence to make iconic moves that spark desire and create utility, driving extraordinary results.

OneFifty Consultancy

We work with brands and individuals to use data and models of human behaviour to drive purposeful digital interactions.

Sparkler (part of PA Consulting)

Part of PA Consulting. Sparkler was born in 2001 to help businesses understand and exploit the complex interplay between consumers, brands and the digital world. Since then, we've had front row seats as digital technology has found its way into every aspect of everyday life, and every business. Working with the world's leading media and technology companies, has given us privileged access we've relished. Not only that, but it's given us invaluable expertise that a host of blue chip companies, have increasingly sought to benefit from. In this time, our offer has evolved to now include Research & Insight, Brand Strategy and Service Innovation. In May 2018 Sparkler became part of PA Consulting Group, enabling us to build on our success. We believe that understanding the human side of the digital world is essential to all businesses and we will now be able to bring our expertise to more clients, in more markets, more swiftly. Our team is based in London, but our work covers the globe.

The Value Engineers

We are a brand and marketing consultancy. We are 'Engineers', trusted by our clients to provide both the rigour and expertise required to build their most valuable assets, along with the spark of innovation, of creativity to help those brands live, breathe and thrive. To grow, you need to tackle complexity head-on, embrace it, see the opportunities it presents. The easy answer, the singular answer, the quick win is no longer enough. Our proprietary toolset of methodologies enables our clients to master complexity and to drive growth.

Charity/public sector consulting

31ten

31ten is a trusted, independent, and agile consultancy that works closely with a range of public-sector organisations, principally in local and central government. Specialising in the areas of strategy, leadership, assets, procurement, regeneration, housing, and organisational change, we benefit from a rare combination of experience that is more specialist than that of traditional consultancies. This allows us to deliver the tailored, creative results our clients want to meet their individual needs.

Actica Consulting Ltd

Actica Consulting is an independent firm providing business and technical service to the UK public sector and related organisations. We specialise in the design, procurement and delivery of digital services and associated business change activities. From working with MOD, Fire Services, Police Forces, to the NHS, we deliver complex projects on challenging timescales, all to the highest quality.

Aleron

A social impact consulting firm dedicated to helping individuals, organisations, and governments to create positive change in society.

Basis

A change and innovation consultancy that works with the public sector.

BritainThinks

Insight and strategy consultancy, working extensively with the public and charity sectors, and well as some commercial clients.

Carnstone Partners LLP (<https://carnstone.com/about>)

We are not campaigners: we don't tell companies what they 'ought' to do. Our aim is to offer the best advice and services: practical, creative, rooted in good research and thinking, and – above all – useful.

Cordis Bright Consulting

Provides consultancy, advice and research aimed at improving public services and works with national and local government, the NHS and care providers from the independent sector.

Corporate Citizenship

A global management consultancy specialising in sustainability and corporate responsibility. They work with corporate clients around the world to achieve their commitments to responsible business behaviours and sustainable practices.

Farsight Consulting

Work across the public, private and not-for profit sectors, clients include large government departments, charities and technology companies. They have a technology and digital focus.

Human Engine

We offer services for the public sector and those who work with it. Human Engine was founded by a group of local government officers who think the sector deserves better than it gets from traditional consulting and training firms – more personal, more human and more knowledgeable of the realities of local government. Our people are the most important asset to our organisation and we expect that yours are, too. We believe that to reach their potential,

organisations should not only invest in their people but embrace their humanity. We can help to develop your talent and, when you need it, we can work alongside you, too.

3works

We are an established management consultancy with extensive experience of working with recognised clients across a growing number of sectors.

Our capability for delivering high-profile digital, comms and technology-centric management and support solutions is how we are best known, but that isn't our sole focus. Our record speaks for itself: we can deliver any kind of work requiring P3M, analysis, planning, strategy, delivery and other related functions. Our experience spans sectors ranging from defence to health, from public sector to oil, gas and nuclear, and many more.

Innovation Unit

A social enterprise that works with the public sector to develop different, better, lower cost solutions to social challenges, focus on children's social care, education and health.

Leapwise

Leapwise provides evidence-based, technology-enabled consulting - powered by decision science. We help our partners with their most critical organisational decisions and help them to develop their ongoing decision-making effectiveness. Harnessing evidence, world-leading expertise and experience, we help our clients achieve more, faster. Leapwise focuses on providing support in complex risk critical domains, including policing, justice and healthcare. We are motivated by social impact and work with a different non-profit client each year on a pro bono basis. Our company has its roots in crime, security and criminal justice but we work across sectors, deploying our subject experts as well as process specialists to any project. A strong component in all our work is helping our clients to think differently, challenge their assumptions and help them evolve their personal decision-making styles and approaches.

Morris, Hargreaves, McIntyre (Arts & Heritage Consultancy)

Morris Hargreaves McIntyre is an international consultancy. We are renowned for using market insight to make a real difference to the organisations we work with.

Our clients are charity, heritage or cultural organisations of all sizes. These clients include some of the world's leading museums, galleries, theatres and arts centres as well as heritage bodies and charities including, Action Aid, [BFI](#), [British Museum](#), [Chester Zoo](#), [Eden Project](#), [National Trust](#), Shakespeare's Globe, [Southbank Centre](#), [Tate](#), Qatar Museums Authority and [92nd Street Y](#) to name but a few.

We have professional project management resources, qualified statisticians and are members of the Museums Association, UK Evaluation Society, Market Research Society, Chartered Institute of Marketing, Association of Qualitative Research and Visitor Studies Group.

Nestor Advisors

London-based advisory firm specialising in corporate governance and organisational design. They work with the boards and senior management of financial institutions, companies and not-for-profit organisations to improve decision making, organisational structures.

NPC (New Philanthropy Capital)

A charity that describes itself as part think tank and part consultancy, they work with charities, philanthropists, funders and social enterprises to help them maximise their impact.

NFP Synergy

A small research consultancy working exclusively in the not-for-profit sector. They deliver research (qualitative and quantitative), insights and expertise to help non-profits understand their audiences and make informed strategic decisions.

[Optimity](#)

Using data strategically, in addition to commercial sector coverage, expertise in public policy including healthcare, social welfare, migration and home affairs, crime and corrections, and industry regulation.

[Premier Advisory Group](#)

Premier Advisory Group is a multi-disciplinary professional services firm with a specialism in education consultancy and related areas. Our clients want to navigate complex environments, solve difficult problems and maximise the good they can do in the world – and we are here to help. Our staff and directors are drawn from a range of backgrounds including public policy, academia, central government and frontline teaching and learning.

[The PSC \(formerly 2020 Delivery\)](#)

Our aim is simple: to improve public services. For over 14 years, we have worked with some of the biggest public service organisations in the UK, collaborating with leaders and teams to make lasting change happen.

[Private Public Ltd](#)

A leading independent consultancy working on practical projects promoting health, wellbeing and economic success across the UK.

[PUBLIC](#)

A new consultancy that helps start-up technology firms transform government.

[RedQuadrant](#)

RedQuadrant is an exciting efficiency and transformation consultancy for the public sector. We have a track record of supporting clients to actively grasp the potential of change, and focus on producing robust, useful, and well-evidenced strategy and delivering effective transformation. We recognise that clear shared outcomes, strategic vision and top level and political alignment are equally critical success factors to effective community engagement for the success of projects. We offer proven, experienced consultants for substantially less cost than the big, traditional consultancies.

[Rocket Science](#)

Work with national and local government, their agencies, and the charity sector, with offices in London and Edinburgh.

[Sancroft](#)

A sustainability consultancy, working with industry leaders to enhance their environmental, social and ethical impacts.

[Social Finance](#)

A not for profit organisation working in partnership with government, the social sector and the financial community to enable sustainable social impact at scale. Their teams work with central and local government, global development organisations, charities, social enterprises, foundations and investors. Areas they work in include financial inclusion, affordable housing, recidivism, homelessness, and children in or at risk of entering care.

[The Knowledge Partnership](#)

A strategic marketing, reputation management and analysis agency dedicated to supporting the university sector.

[The Research Base](#)

An international research consultancy based in London and Brighton. They provide research, market intelligence and evaluation services to clients operating in the fields of education and skills, third sector/international development and business. Clients include education providers, national and international charities, governments and multinational businesses.

[The Social Investment Consultancy \(TSIC\)](#)

They operate at the intersection of the for- and non-profit sectors, dedicated to helping businesses and charities maximise their social impact. The latest models of social enterprise, revenue generation and social investment, and the integration of skills and expertise from across the public, private and third sector form the basis for their work.

[YouGov](#)

Opinion research organisation working with political, cultural and commercial clients.

University of Cambridge Careers Service

Communications & PR consulting

Context

Imagine your business, but better: this is what we do. We are a transformation agency, helping you future-proof your business with a visionary sustainability strategy. We create compelling communications campaigns to ensure you are better trusted by customers, supported by shareowners and loved by employees.

DRD Partnership

DRD Partnership is a strategic communications consultancy focused on building value for our clients and protecting their reputations at moments of challenge and of change.

Kekst CNC

We are leaders in business-critical communications. Every day we help clients communicate through complex transitions, manage strategic opportunities and crises, and enhance reputations through proactive and responsive communications. Kekst CNC is a global strategic communications firm with deep local roots in the world's key corporate and financial centers. We harness ideas and expertise from the world's most creative and experienced professionals to seamlessly support our clients.

Kekst CNC is part of [Publicis Groupe](#), the world's third largest communications group.

Milltown Partners

We are a global advisory firm working with influential organisations and individuals on the communications and public policy challenges that define their reputations.

Ocean Strategy

Strategy in media & information is our purpose and passion. Ocean is the leading dedicated media & information strategy consultancy in Europe. We tackle the most difficult strategic issues for media companies and investors in media. The combination of the two challenges of the moment in media - the structural shift caused by digital and the worst downturn in memory - has raised demand for Ocean's services to an all-time high from media owners facing unprecedented change.

Public First Limited

Public opinion determines corporate reputation and sets the parameters in which politicians approach policy. We help organisations understand and influence public opinion through research and targeted communications campaigns. And we help businesses craft policy ideas that Governments can realistically apply to difficult issues.

Construction & property consulting / architectural / real estate

CPC

CPC is an energetic, accomplished project management and management consultancy. Established in 1990, we have a network of UK offices, 180+ employees and annual revenue over £22 million. We're passionate in pursuing our vision to be recognised as the UK's best independent programme and project management consultancy. We provide high-calibre services to support capital schemes, from project management to development and investment appraisal, commercial services and stakeholder management. We complement these with a range of business consulting services to help you transform your performance and maximise efficiencies - including business cases, Lean Thinking and organisational development. We specialise in the transport, property, local government, health and education sectors.

Gardiner & Theobald LLP

Gardiner & Theobald is an independent construction and property consultancy for the built environment

Spring11

Spring11 was founded in the spring of 2011 to provide commercial real estate consulting and advisory services. The company is headquartered in Manhattan with offices in Atlanta, London, and Chennai, India. We have a diverse client base including CMBS originators, investment banks, B-piece buyers, and equity investors. As an independent company with a diverse client list, we are not institutionally bound, nor captive to any single dominant client.

University of Cambridge Careers Service

Data consulting

Anmut Consulting

Data are one of the most valuable assets we have. Data helps us make better decisions, that lead to better outcomes and impact for customers, employees, suppliers, stakeholders, local communities or future generations. We make data speak the language of business, so businesses can get the most out of data, for all their stakeholders. We've built a multi-disciplinary team of data scientists, strategists, and business engineers to do this. The team is led by Herman Heyns, former lead partner at Accenture, KPMG and EY, and Professor Andy Neely.

Arca Blanca

We are Arca Blanca, an integrated consultancy and data company. We combine leading thinking in business design, data science, and machine learning to map and implement business and operating model changes that will deliver results.

Artefact

Artefact is a global service company that sits at the intersection of marketing, consulting and data science.

Our 800 people break business and IT silos and transform organisations into consumer-centric leaders using digital, data and AI. Artefact offers a broad range of services – from strategy to operations – that help companies capture the competitive edge of data transformation

Aurora Energy Research

Aurora Energy Research is a young, dynamic and fast-growing energy analytics company. We provide optimisation solutions and data-driven analytics on European and global energy markets that helps our clients navigate the global energy transformation. Founded in 2013 by a group of University of Oxford academics on the premise that technological progress, and policies tackling climate change, render energy markets increasingly complex, but that this complexity yields to rigorous, sophisticated analysis and modelling. Aurora is now a thriving, rapidly-growing company of over 100 staff with offices in Oxford, Berlin and Sydney. Demand for our services – spanning subscription research and consultancy – is immense, in the UK and abroad. We currently serve over 200 of Europe's most influential energy sector participants, and we expect to grow beyond 150 staff over the next 18 months.

Capgemini Engineering Team

Capgemini Engineering combines, under one brand, a unique set of strengths from across the Capgemini Group: the world leading engineering and R&D services of Capgemini Engineering – acquired by Capgemini in 2020 – and Capgemini's digital manufacturing expertise. With broad industry knowledge and cutting-edge technologies in digital and software, Capgemini Engineering supports the convergence of the physical and digital worlds. Combined with the capabilities of the rest of the Group, it helps clients to accelerate their journey towards Intelligent Industry. Capgemini Engineering has more than 52,000 engineer and scientist team members in over 30 countries across sectors including aeronautics, automotive, railways, communications, energy, life sciences, semiconductors, software & internet, aerospace & defence, and consumer products.

Crux Strategies

At Crux Strategies, we believe strategy without data is just an opinion. That's why we leverage data and technology at every step of our process. We are a national firm specializing in

corporate strategy, healthcare compliance and bankruptcy, business analytics and government relations. As a full-service consulting firm based in Nashville, Tennessee, we help organizations and corporations navigate and avoid crisis, improve revenue and operations, influence legislative change and resolve disputes. Backed by a depth of corporate, legal and lobbying experience, our team provides unmatched knowledge and insights to craft solutions, transform operations, and solve complex issues.

Data Consulting

Based in the UK, DataConsulting, is a leading data analytics consultancy providing training and resource to UK and international organisations. DataConsulting is able to provide ACL software solutions in data analytics, audit and risk management.

INFOMOTION (Germany)

Experts in the areas of business intelligence, big data and digital solutions.

We leave nothing to chance, but everything to excellently trained specialists. With this approach, we have already been able to successfully implement more than 5,000 customer projects.

However, our experts are not only familiar with business intelligence, big data and digital solutions in general. They also have in-depth knowledge of various specialist areas and industries. Your topic is always our topic. We feel at home where you are professionally at home. But we also know that every project has a very individual character. That is why we familiarize ourselves with your task in detail at the start of a project. Because the better we understand your situation, the better we can identify with your goals - and ultimately achieve optimal results together.

JMAN Group

We are a global team of consultants, data scientists and full-stack engineers, united by an ambition to help businesses create value through commercial strategy, analytics and technology. JMAN combines the mindset of a management consultancy with the skillset of a technology company. We have the commercial expertise and professional rigour of a consulting firm, but we add to that the spirit and speed of a tech company.

We have a unique blend of commercial and technical capabilities to ensure we can give our clients what they need across consulting, data science, engineering and software development

Mime Consulting

We are an innovative consultancy that uses data and technology to help organisations make better decisions. We take pride in our ability to use data intelligently, making complicated information accessible to anyone. We are determined that our work should have the maximum impact on the life chances of young people.

Quick Release (Automotive) Ltd

We release engineering and automotive professionals from the burden of product data management and the drain of underperforming programmes, freeing them to create, innovate and get products to market faster. It's a winning formula for success; optimising data, systems and people. And because we've built a profession focusing exclusively on this, the product data quality is the best it can be.

Design, engineering & management consulting

Arcadis

Arcadis is the leading global Design & Consultancy firm for natural and built assets. Applying our deep market sector insights and collective design, consultancy, engineering, project and management services we work in partnership with our clients to deliver exceptional and sustainable outcomes throughout the lifecycle of their natural and built assets. We are 28,000 people, active in over 70 countries that generate €3.5 billion in revenues. We support UN-Habitat with knowledge and expertise to improve the quality of life in rapidly growing cities around the world.

BMT

We are a leading international design, engineering, science and risk management consultancy with a reputation for engineering excellence. We're driven by a belief that things can always be better, safer, faster and more efficient.

University of Cambridge Careers Service

Economic / financial consulting

[Alpha \(formerly Alpha Financial Markets Consulting\)](#)

In a fluctuating landscape of consolidation, digitisation, shrinking margins and automation, Alpha helps asset and wealth managers think smarter and shape their business for the future.

[APR LLP](#)

APR specialises in providing high quality actuarial solutions to assist clients when they need additional support. Our clients are characteristically large blue-chip UK financial institutions. The distinguishing features of our graduate scheme are early opportunities for direct exposure to our key clients, the variety of work gained by moving between different clients and different actuarial projects, and our genuine commitment to ongoing training and development of our staff.

[Cambridge Econometrics Ltd](#)

Our deep understanding of the policy context combines with our expertise in data analysis and economic modelling to give you the clear insight you need to make decisions confidently.

[Capital Economics](#)

Capital Economics' unparalleled coverage of the global economy and markets gives you the insight you need to make better decisions faster.

[CEPA](#)

CEPA is an economic consultancy firm, working for both private and public sector clients where economics, finance and public policy overlap.

[Compass Lexecon](#)

We are one of the world's leading economic consulting firms. In Europe, we provide expert economic advice on competition, damages, intellectual property, and regulatory matters. Our success stems from our ability to develop and apply economic theories, support them with robust empirical analysis, and present our findings in a clear and compelling manner.

[Cornerstone Research](#)

Cornerstone Research is a consulting firm specializing in the analysis of complex financial, economic, accounting, and marketing issues. In recent years, Cornerstone Research has become one of the nation's leading finance and economics consulting firms with more than 750 full-time staff members across eight offices. We attribute our success to a unique combination of resources: a creative and energetic staff, cutting-edge research, and our network of academic and industry experts. Our consultants employ innovative problem solving approaches and achieve unparalleled analytic depth. Our uniquely collegial and supportive atmosphere makes Cornerstone Research a great place to work.

[Fathom Financial Consulting Limited](#)

We specialise in global economic and financial market research, and we make it our business to challenge conventional thinking and to convey rigorous analysis in plain English, with feeling.

[Frontier Economics](#)

Now one of the largest economic consultancies in Europe, we started Frontier Economics in 1999 wanting to do things differently. Owned entirely by our staff, our business attracts the best people and the most interesting work. Our principles remain. Our clients remain happy. We go beyond the numbers to find out what's really going on. Our clients enjoy objective advice, clearly expressed. With our help, they make better decisions and get better results.

Hatch Regeneris

We create economic and social insight to help our clients make a positive impact on people, places and economies. As part of the Hatch Group we provide our clients with a full range of support and know-how from concept to completion.

London Economics

London Economics is one of Europe's leading specialist policy and economics consultancies. LE advises clients in both the public and private sectors on economic and financial analysis, policy development and evaluation, business strategy, and regulatory and competition policy.

Mekong Economics Ltd

Bringing innovative solutions to help lift-up communities in Southeast Asia. Mekong Economics has remained true to its mission by harnessing the unrivalled expertise of our Local Teams and combining it with the best practices from around the Globe. We embrace pioneering research methods to support our people - first approach which allow us to consistently deliver viable and sustainable solutions to the most complex problems.

NERA Economic Consulting

NERA Economic Consulting is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For half a century, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. We bring academic rigor, objectivity, and real world industry experience to bear on issues arising from competition, regulation, public policy, strategy, finance, and litigation. NERA's clients value our ability to apply and communicate state-of-the-art approaches clearly and convincingly, our commitment to deliver unbiased findings, and our reputation for quality and independence. Our clients rely on the integrity and skills of our unparalleled team of economists and other experts backed by the resources and reliability of one of the world's largest economic consultancies. With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.

NMG Consulting

NMG Consulting is a leading multinational insurance, reinsurance and investments consultancy, integrating consulting, insights and analytics. Our consultants provide strategy consulting, insights, analytics and actuarial services to financial institutions including banks, insurers, reinsurers and fund managers.

Operis Group plc

A reputation built on quality modelling, advice & collaborative transaction support. Since the firm's inception in 1990, Operis have developed an envied portfolio of services specifically focused on project finance. The firm has its origins as a specialist in the financial modelling of project finance transactions. That expertise remains a distinctive strength. Over time, Operis's activities have widened to cover a full portfolio of project finance related services including financial advice, model audit, financial modelling training and financial modelling software.

Perella Weinberg Partners UK LLP

Established in 2006, Perella Weinberg Partners is a leading independent, client-focused financial services firm providing services to a broad, global client base.

RBB Economics

RBB Economics is a world leading economics consultancy specialising in competition matters, with 10 offices globally. Competition economics concerns the behaviour of firms with market power, and covers issues such as mergers, vertical agreements, joint ventures, price setting and other potentially abusive behaviour. Working mainly for large global businesses, we

develop, test and present economic arguments and provide independent economic reports on behalf of our clients to competition regulators and courts.

Stamford Associates

We are an award winning investment consultancy founded in 1984. Since that time we have been providing clients with insightful and successful investment solutions. Over the years, we have developed and applied a unique approach to investment manager research, assessment and portfolio construction. We are a team of approximately 40 people based in London with a truly global manager coverage and have built up a manager database of over 6,500 investment managers/strategies worldwide.

The Lantau Group

We are Asia Pacific's premier energy-focused strategy and economic consulting group. We offer the capabilities of a larger professional services firm, with the flexibility, innovativeness and expert knowledge of a boutique. We help clients from across the region's electricity and gas value chains answer some of the toughest questions in the business.

Vivid Economics

Vivid Economics is a leading strategic economics consultancy spanning public policy and private sector strategy and investment. We work across a wide range of sectors, including energy, industrials, natural resources (water, land use and marine), transport, real estate, urban infrastructure and services, manufacturing and technology, investment and banking. We are known for our expertise across a number of themes, including economic growth and development, policy and market design, scenario analysis and asset valuation, natural capital accounting and resource management, low-carbon and climate resilience strategies, risk management and decision-making under uncertainty, spatial planning and special economic zones. We pride ourselves on our robust analytic toolkit, drawn from academic partners and proprietary tools, including CGE and econometric modelling, energy and natural system modelling, trade and industrial market power modelling, and spatial modelling using earth observation and other data. In all our work, we put economics to good use by supporting important decisions and carrying the argument to implement them. The success we bring to our clients reflects a strong partnership culture, solid base of skills and analytical assets, and close cooperation with a large network of contacts. The foundations of our business are our values and mission-driven approach, world-class skills and our commitment to developing and maintaining cutting-edge techniques. These are housed in an independent, highly-motivated, entrepreneurial, employee-owned business, based in London.

Engineering consulting

Atkins

A world-leading design, engineering and project-management consultancy. Our lived environment is facing rapid change; to face these challenges, we are radically transforming the way infrastructure is designed, delivered and operated. Our aim is to help create a world that is diverse, sustainable, full of thriving communities and working better for all.

Hoare Lea

We are an award-winning engineering consultancy with a creative team of engineers, designers, and technical specialists. We provide innovative solutions to complex engineering and design challenges for buildings.

Ramboll

Ramboll is a global engineering, architecture and consultancy company founded in Denmark in 1945. Our 16,000 experts create sustainable solutions across Buildings; Transport; Water; Environment & Health; Architecture, Landscape & Urbanism; Energy and Management Consulting. Across the world, Ramboll combines local experience with a global knowledgebase to create sustainable cities and societies. We combine insights with the power to drive positive change to our clients, in the form of ideas that can be realised and implemented. We call it: Bright ideas. Sustainable change.

Ricardo Energy & Environment

We are a global strategic engineering and environmental consultancy that specialises in the transport, energy and scarce resources sectors. Our work extends across a range of market sectors – including passenger cars, commercial vehicles, rail, defence, motorsport, energy and environment – and we are proud to possess a client list that includes transport operators, manufacturers, energy companies, financial institutions and government agencies.

Mott MacDonald

We're a global engineering, management and development consultancy. Our purpose is to improve society by considering social outcomes in everything we do, relentlessly focusing on excellence and digital innovation, transforming our clients' businesses, our communities and employee opportunities.

Energy consulting

Apricum – The Cleantech Advisory

Apricum is a globally active transaction advisory and strategy consulting firm dedicated to the cleantech industry. Established in 2008, we serve our clients as their independent advisor to help them succeed in the fields of solar & wind, water, waste, energy storage, green mobility and digital energy. Apricum's team of experts combines decades of industry experience in cleantech, consulting, and corporate and project finance with an in-depth understanding of renewable-energy market dynamics.

Delta Energy & Environment

Since 2004, we have provided our clients with the leading information, analysis, insight and advice in emerging distributed energy markets. Our in-depth research helps our clients exploit opportunities in the change in energy markets from old to new energy and make the best decisions for their business. We always go the extra mile for our clients, and pride ourselves on long-lasting, collaborative working relationships.

The Energy Contract Company

The Energy Contract Company (ECC) is a leading commercial consultancy in the global oil and gas industry. Since 1988 ECC has successfully advised over 400 clients on energy projects and disputes spanning five continents. It has an outstanding reputation as the firm trusted to deliver value in complex transactions & negotiations, resource developments and litigation proceedings worldwide.

Element Energy Ltd

Element Energy is a dynamic and growing technology consultancy specialising in the robust and intelligent analysis of low and zero carbon energy. Our work involves innovative new concepts and is fundamental to the shift to a low carbon future and the mitigation of climate change. We help both public and private sector organisations develop their decarbonisation strategies, technologies, policies and projects through evidence-based investigations. We also work with a wide range of clients and partners to demonstrate and commercialise new technologies to enable the transition. Our teams span all key areas of low carbon energy: transport, buildings, hydrogen and fuel cells, industry and CCUS, energy networks and smart energy systems. We pride ourselves on the strength of our analysis; we work closely with our clients, aiming to exceed their expectations and solve the challenges of climate change together.

University of Cambridge Careers Service

Environment/Sustainability

3Keel

We are an Oxford-based sustainability consultancy committed to making food systems, supply chains and landscapes fit for the future.

Browning Environmental

The world's leading communications consultancy on environmental issues. Browning Environmental Communications was spun out of its parent firm, Browning & Associates (B&A), in 2017. The move was in response to demand from B&A clients for a specialist, knowledgeable service that large companies could depend on to provide best practice solutions to environmental communications challenges. We operate globally, with teams of experienced environmental communicators with advertising, digital and PR backgrounds, working together with specialists from the environmental sciences.

BVG Associates

BVG Associates provides strategy consulting in renewable energy. We help our clients to do new things, think in new ways and solve tough problems. We aim to help our clients succeed in a sustainable global electricity generation mix founded on renewables. We are a global, independent wind and marine energy generation consultancy.

Environmental Resources Management (ERM)

ERM is a leading global provider of environmental, health, safety, risk, social consulting services and sustainability related services. We work with the world's leading organizations, delivering innovative solutions and helping them to understand and manage their sustainability challenges. To do this, we have more than 5,500 people in over 40 countries and territories working out of more than 160 offices.

Good Business

Good Business was founded over twenty years ago, which makes us pioneers of the power of good. We have more than two decades of experience of working with organisations to help them succeed in the future by showing that they can make it a better place to be. We understand the space where business meets sustainability more than anyone. Our knowledge of what works and what doesn't becomes part of every future solution we develop. And we're as passionate about delivering change as we've ever been.

Longevity Partners Ltd

Longevity Partners is a multi-disciplinary energy and sustainability consultancy. Founded in 2015 to support businesses in the transition to a low carbon economy across the UK, Europe and worldwide. We provide strategic guidance, compliance support and innovative solutions to property investors, developers and occupiers. We enable them to achieve their energy and resource efficiency targets, reduce their environmental impact, future-proof their businesses and unlock their full commercial potential. Longevity Partners believes in long-term partnerships in order to drive the transition to a low carbon economy through the implementation of innovative tactics. We provide our clients with solutions to improve their competitiveness, grow revenues and better address the changing needs of their clients.

KKS Advisors LLC

At KKS, we advise leading organizations on bold and effective strategies that pave the way to a sustainable society. Applying our unique, research-backed approach, we work with corporations, foundations, NGOs and investors on sustainable strategies that deliver lasting impact.

Sancroft

A sustainability consultancy, working with industry leaders to enhance their environmental, social and ethical impacts.

South Pole

At South Pole, we work with businesses and governments across the globe. We help realise deep decarbonisation pathways across industries, based on a thorough understanding of climate risks and opportunities in specific sectors, as well as the highest emission reduction standards.

Sustain Value

Our mission is to help businesses and investors successfully navigate the transformation through applying affordable 'value' based approaches to help sustain and enhance value for their shareholders and wider stakeholders. Our purpose is to help create a more sustainable and resilient planet allowing people, nature and businesses to thrive for generations to come.

TNEI Services Ltd

TNEI is an independent specialist energy consultancy providing technical, strategic, environmental and consenting advice to organisations operating within the conventional and renewable energy sectors. We have a range of skills tailored specifically to answer the issues associated with increased distributed renewable generation and the integration of low carbon technology. Our consultants have industry leading expertise in grid code compliance studies, noise assessment and modelling of innovative, smart grid technologies. These skills are complemented by a number of other technical services; from GIS and consenting, to civil engineering and energy market analysis, allowing us to confidently guide clients through projects from concept to delivery. TNEI also owns and develops the power systems analysis software, IPSA 2, which contains an extensive range of fully integrated modules enabling all essential studies to be undertaken and can be used to provide bespoke modelling solutions.

WSP

WSP is one of the world's leading professional services consulting firms. We are dedicated to our local communities and propelled by international brainpower. We are technical experts and strategic advisors including engineers, technicians, scientists, architects, planners, surveyors and environmental specialists, as well as other design, program and construction management professionals. We design lasting solutions in the Transportation & Infrastructure, Property & Buildings, Environment, Power & Energy, Resources and Industry sectors, as well as offering strategic advisory services.

Health / Social Care Consulting (see also *Pharma, Life Sciences*)

[Akeso & Company](#)

The leading partner for healthcare organisations, enabling sustainable improvements in health outcomes.

[Cambridge Healthcare Research](#)

Cambridge Healthcare Research (CHR) is a consultancy providing strategic support to biopharmaceutical, medical device and NGO clients. CHR's expert team of consultants, based across Europe, North America and Asia, delivers tailored solutions based on our analysis and experience of strategy consulting and product commercialisation. Our mission is to enable clients to navigate difficult decisions by providing a deep understanding of their market positioning and outlining competitor activities, intent, and capabilities. Joining the CHR team will provide you with commercial exposure to strategic challenges faced by the leading players within the pharmaceutical industry.

Windrose Consulting Group is a global commercial strategy consulting firm focused on the healthcare industry. We help life science companies maximize the commercial value of their products and bring new innovations to market for the benefit of society. We provide commercial strategy services focused on product and portfolio planning, and pricing and market access strategies.

Intelligence & Due Diligence

Aperio Intelligence

Aperio Intelligence is an independent corporate intelligence and financial crime advisory firm based in London with offices in Paris and Romania. Founded in 2014, we are a fast-growing and dynamic team providing specialist due diligence, research and investigation services to support our clients in managing complex risks in challenging jurisdictions. Our clients include major banks and financial institutions, large multinationals, law firms and energy and healthcare companies. We provide significant value to our clients by helping them understand potential risks to enable them to make informed decisions, particularly in relation to countries where the environment is opaque. Our multidisciplinary and multilingual team has significant expertise in identifying financial crime risks and we produce thought leadership on the issue through our monthly publication, the Financial Crime Digest.

Bearstone Global

Bearstone Global is a commercial intelligence and corporate advisory firm that delivers actionable intelligence for strategic decision making. Bearstone combines sophisticated intelligence-gathering, innovative investigative methods, and structured analytical techniques, providing clients with the information they require to assess investment opportunities, develop risk profiles, answer regulatory concerns, conduct legal proceedings, or trace and seize stolen assets.

Mosaic Advisers

Mosaic Advisers is a corporate intelligence consultancy, providing high-value insight and assessment to investors, professional advisers and governments. We help our clients confront risk and capitalise on opportunity.

Schillings

We are the only business in the world to deploy - under one roof - intelligence experts, investigators, cyber specialists, risk consultants, lawyers and top people from the military, banking and government. By operating as one team, we shorten the time it takes to solve a reputation problem or a privacy threat. When there's a crisis, we run point for you, by deploying our combined experience in intelligence, investigations, risk, cyber and law to zero in on the source of your problem and fix it.

Wallbrook

The history of the team at Wallbrook dates back to Billiter, a due diligence consultancy founded in 2007. Many of Wallbrook's founding Partners and Directors worked together at Billiter prior to the company's sale to US investigations firm Stroz Friedberg in 2013. They subsequently developed the Due Diligence & Strategic Research team of Stroz Friedberg into a group of over 80 professionals, and were part of the management team which oversaw the acquisition and integration of Stroz Friedberg into Aon Plc (NYSE: AON) in 2016. In 2018, Wallbrook was established with independence and integrity as its founding principles. Operating as an incorporated partnership, Wallbrook is already one of the largest independent and wholly employee-owned due diligence firms operating worldwide.

HR consulting

Buck Global

With changing dynamics in retirement, healthcare, and wellbeing, people think about work in very different ways. Today, your employees and members expect you to invest in their growth and their financial security in flexible and more personalised ways. At Buck, we're working to redefine the social contract, or two-way relationship, between you and your employees, trustees and members, to not only accommodate shifting expectations, but to stay ahead of them. We partner with forward-thinking organizations to re-envision the role of the employer and re-design how employees work and live.

ECA International

ECA is the world's leader in the development and provision of solutions for the management and assignment of employees around the world. Our highly skilled teams help to ensure that businesses' international assignments operate efficiently and cost-effectively. Delivering data, expertise, systems and support in formats which suit its clients, ECA's offer includes a complete 'out-source' package of calculations, advice and services for companies with little international assignment management experience or resource; subscriptions to comprehensive online information and software systems for companies with larger requirements; and custom policy and system development projects for companies who manage thousands of international assignees around the world.

Herrmann

Maximize your talent by harnessing cognitive diversity. We empower remote and co-located managers and teams to decode and apply their differences in thinking to optimize collaboration. Our proprietary Whole Brain Thinking® approach makes it easy to build alignment, engagement, and agility across your organization. With 40+ years of applied cognitive science and experience with elite organizations, we make better thinking your competitive advantage.

Hot Spots Movement (HSM)

HSM is a specialist research consultancy founded by Professor Lynda Gratton of the London Business School. Lynda is one of the world's leading thinkers on the future of work and organisational behaviour. HSM works to future-proof your organisation's people strategies and working practices, preparing you for the future of work. Drawing on cutting-edge insights from academia, we help companies attract and engage with tomorrow's talent, to foster innovation and enhance performance.

Syneos Health Consulting

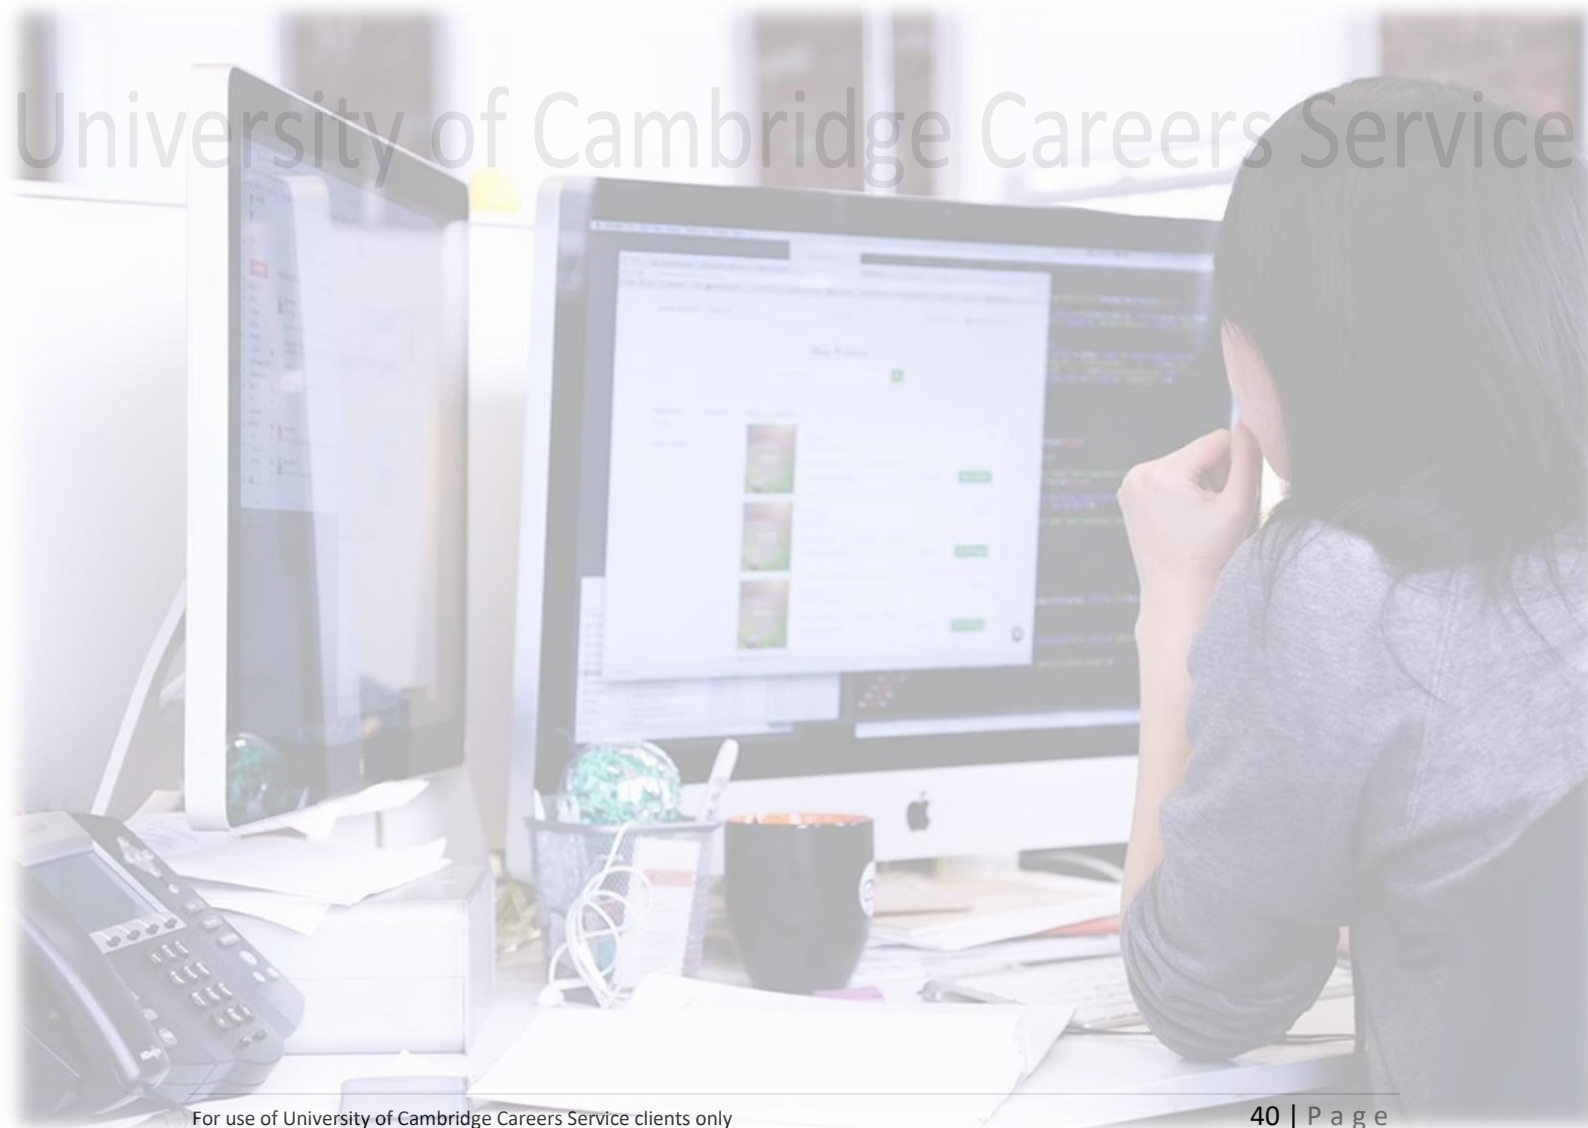

Syneos Health Consulting is a leading management consulting firm specializing in the life sciences industry. We view ourselves as transformation agents addressing some of the industry's most pressing problems. Syneos Health is an end-to-end, fully integrated biopharmaceutical solutions company that works differently. At Syneos Health, all the disciplines involved in bringing new therapies to market, from clinical to commercial, work together to create customer success. Our unique Biopharmaceutical Acceleration Model delivers value across the small to mid-size to large customer continuum.

Synetic Life Sciences

A new consulting firm focused on the life sciences industry. We are differentiated by our ability to offer fresh perspectives and innovative thinking in combination with a sharp focus on disciplined execution and delivery. Synetic brings deep expertise in the research, development and commercialisation of products and solutions across therapeutic areas and modalities. We help our clients by: bringing a focus to value creation for patients as well as shareholders; streamlining product development through aligned functional strategies; building operational capabilities including organisational, process and digital solutions; encouraging new and innovative thinking while maintaining focus on execution and streamlined delivery

Trinity Life Sciences

Trinity's approach is focused on our foundation of three: advisory services, insights & analytics, and technology. By seamlessly integrating each of these solutions, we are able to meet the distinct needs of both emerging biotech firms and established pharmaceutical companies. We can provide comprehensive end-to-end analytical and strategic support to early stage companies, as well as tools and solutions for larger, more established life sciences clients. Our deep industry expertise, powerful tools, and focus on evidence-based insights has enabled us to drive commercialization forward for some of the most innovative therapies and devices in the industry.

University of Cambridge Careers Service

Management & Strategy Consulting

3HPartners

We deliver exponential solutions. We fuse an entrepreneurial mindset with professional management. You won't find other solutions like ours - we call them triple E solutions because they're entrepreneurial, experimental and exponential.

50 Degrees

50 Degrees is a small, but rapidly growing, business that helps organisations develop the world's best public services. We are innovators that help organisations develop the world's best public services. We facilitate solution design, write compelling bids, and support contract mobilisation and implementation. We bring insight and creativity to organisations commissioning, developing and providing public services. We help organisations develop compelling strategy and make difficult choices in complex public service markets. We enable organisations to think differently, tackle hard problems, and capitalise on new opportunities.

Accenture

Accenture's purpose is to improve the way the world works and lives. Applying the new now is how we do that. Designing, developing and delivering the new requires different perspective working together. It also requires new ideas on how to make it happen. You can't develop the new by asking the same questions that you've always asked. Where do you think true innovation comes from? It's not the people who've always been around and know the rules inside out. It's the people who came, looked around and decided what was there could be better.

Access Partnership

Since 1999, Access Partnership has shaped policy on behalf of the world's leading technology companies as they introduce services and products into new markets. We repeatedly create policy, regulatory and legal routes to market that are adopted worldwide, remain fair to all parties and stand the test of time.

Accuracy UK

Accuracy, 100% held by its partners, is the sole totally independent international player in its field of expertise providing advice to company management and shareholders. Our status as an independent company means that we do not perform any regulated professional activities, ensuring that all work produced is objective, of the highest quality and in the best interests of our clients. Our strength is to connect strategy, facts and figures. We provide our in-depth knowledge and expertise to our clients to help them face different situations: acquisitions, disposals, litigation, disputes, companies in difficulty, restructuring. In order to provide bespoke solutions to these situations, we place a great amount of importance on constantly inventing and reinventing our services, understanding that no one solution is the same for each client.

Advancy

Advancy's 200 consultants - across its offices in: London, Boston, Frankfurt, New Delhi, New York, Paris, Sao Paulo, Shanghai and Sydney - support large international corporations in tackling the challenges of development, growth and competitiveness. Based on St James's Square, our London team works mainly with our existing UK clients, among which are numerous London-based investment funds, concentrating on their worldwide deals and portfolio companies. Opened in 2016, our London office has been growing at speed, delivering results for our UK Private Equity and corporate clients. We are excited to expand our team further to consolidate our position across the following capabilities and sectors: Capabilities: Strategy & Innovation; Private Equity; Marketing & Sales; Operations/Restructuring/

Organisation Supply Chain/ Distribution. Sectors: Industrials; Retail & Luxury; Consumer goods; Travel & Leisure.

Elixirr

We're a firm of entrepreneurs, industry experts and consultants. We challenge the conventional, disrupt the traditional, and venture into the unexplored. We're building and running our own businesses together, not just working for one. This is how we create that intangible energy where innovation and entrepreneurialism are our DNA. We're helping our clients change the game in their industries, and we're changing the game in our own. Our vision? To build the best consulting firm in the world.

Univ

Service

EMERTON

Emerton is one of the few global, high-standard strategy consulting firms. Our team is mobilized to bring speed to a few clients in each of the sectors we cover, both in their strategic decision-making and in the delivery of their plans. We line-up a unique set of capabilities and track record on high stake assignments with our clients. Initially founded to bring, on selected industrial sectors, the service level of large reference strategy consulting firms while bringing higher value and better return on investment, Emerton quickly paved its own path. It established a culture of its own, working with large corporations, family businesses and technology entrepreneurs, combining deep sector expertise to agile and pragmatic approaches.

Estin & Co

Estin & Co assists CEOs and senior executives of European, North American and Asian corporations in the formulation and implementation of growth strategies.

EY-Parthenon

EY-Parthenon is a global strategy consultancy. We are committed to using unconventional yet pragmatic thinking to deliver actionable strategies in order to help our clients navigate the ever-changing business landscape and solve complex business matters, driving change for tomorrow's working world. Parthenon combined with EY in 2014. Together we have an ideal balance of strengths, broad executional capabilities and specialised expertise with intimate client relationships and global support networks. We advise on a vast range of issues, such as core value propositions, competitive positioning, and growth strategies. EY-Parthenon employees are able to enjoy unparalleled contact with influential and highly experienced professionals within the firm, as well as at clients' organisations across a multitude of sectors. The London office focuses on Diversified Industrial Products & Services, Education, Energy, Financial Services, Healthcare & Life Sciences, Private Equity, Retail, Consumer & Leisure and Technology, Media & Telecoms.

Fairgrove Partners

Fairgrove Partners was founded to resolve strategic challenges for our clients, and to support mergers and acquisitions. We offer high-quality strategic advice to private equity funds, their portfolio companies, and corporate clients. Our work helps clients make complex, high-stakes decisions that have a direct impact on sales, investment, profitability and brand equity. Our advice is delivered direct to the board and often rapidly actioned by our clients, making our hard work all the more gratifying. Our consultants are experts in research, interviewing, modelling and conceptual thinking. We use rigorous financial and commercial analyses in all our projects to identify the root causes of a company's performance and competitive position.

Firetail

What our clients do has never been more important. Firetail works with ambitious, mission-driven organisations that want to contribute to a better society for everyone. Our job is to give them the ideas, insights, confidence and clarity they need to develop strategies as strong as their values. People work with Firetail when they need 'a fresh perspective', a 'new look at an issue' and a partnership that's 'confidence-building'. These are our clients' words. We believe bold, independent thinking, applied to the challenges facing society can make people's lives better and fairer. That ideas and insights are sparks for positive social change.

FTI Consulting

FTI Consulting is an independent global business advisory firm dedicated to helping organisations manage change, mitigate risk and resolve disputes: financial, legal, operational, political & regulatory, reputational and transactional. Kaizen Institute is the original and premier provider of KAIZEN™ services. We support companies of all sizes in all market segments, providing them with a sustainable, competitive advantage.

Kanvic Consulting

Kanvic is a pioneering management consulting firm collaborating with visionary leaders on their most critical strategic issues.

Kearney

Kearney is a leading global management consultancy, helping some of the world's largest companies to achieve sustainable competitive advantage. For over 90 years, we have provided strategic solutions to CEO-level concerns, delivering tangible results through a broad range of experience, but our greatest asset is our people. Kearney consultants are collaborative, personable, and entrepreneurial. We immerse ourselves in a company to gain deep insight into clients operational and strategic potential, working specifically to co-create solutions. We are committed to helping clients achieve long-term growth and performance. We work with more than three-quarters of the Fortune Global 500, the world's largest companies by revenues, as well as with the most influential governmental and non-profit organisations.

L.E.K. Consulting

L.E.K. Consulting is a global strategy consulting firm that uses deep industry expertise and rigorous analysis to help business leaders achieve practical results with real impact. We are uncompromising in our approach to helping our clients to consistently make better strategic decisions, deliver improved business performance and create greater shareholder value. The firm advises and supports global companies that are leaders in their industries, including the largest private and public sector organizations, private equity firms and emerging entrepreneurial businesses.

Management Solutions

Management Solutions is an international consulting Firm whose core mission is to deliver business, risk, financial, organization, technology and process-related advisory services.

Manifesto Growth Architects

So what does it mean to be a Growth Architect? We'll figure out what your customers really value, what needs to change to meet their needs and how you make that happen. And we'll prove there's profit in making those changes with scale. Our way of working makes the difficult stuff feel easy, but don't take our word for it, our clients are the ones that really know.

Marakon Associates

Marakon works with Executive teams to raise the level of strategic ambition, create clarity on the best strategic direction and shift resources towards the generation of superior value growth, putting in place the standards, accountabilities, and performance management systems for making it happen on a consistent basis. We work on a range of strategic issues including optimizing resource allocation across the portfolio, organic and inorganic growth strategies, strategic turnarounds or disposals, as well as individual product / brand / customer / market strategies.

MC2

It all starts with clarity of vision, objectives, strategy and tactics. We specialise in the ability to facilitate this clarity to create a framework and understanding that drives every piece of activity going forward. Our knowledge and experience of the high growth sectors adds huge value to this process. Our senior management team and sector specialists provide consultancy to

businesses to assist with go to market strategies, brand positioning and even team structure and resource decisions.

McKinsey and Company

We help organizations across the private, public, and social sectors create Change that Matters. From the C-suite to the front line, we partner with our clients to transform their organizations in the ways that matter most to them. This requires embedding digital, analytics, and design into core processes and mind-sets, and building capabilities that help organizations and people to thrive in an ever-changing context. With exceptional people in 65 countries, we combine global expertise and local insight to help you turn your ambitious goals into reality.

Mediatique

Mediatique is a strategic advisory firm specialising in the media and communications industries. We work with clients to better understand and respond to industry developments, across three core competencies: strategy consulting, market sizing and scoping, and commercial due diligence. We work in close conjunction with our clients in order to achieve practical and actionable results. Our experienced team of consultants serves the full spectrum of organisations within the media and communications sectors, including media & entertainment, digital marketing, technology & telecommunications, publishing, music and gaming.

Meridian West Ltd

Meridian West helps professional firms to develop and implement client-focused strategies.

Moorhouse Consulting

Working with Moorhouse is different. We're committed to your success, not only during a project but for the long term. Many organisations design their own strategy but need help effecting it. We specialise in turning your strategy into action and by bringing structured delivery expertise. Whether you're making small internal changes or transforming your business model, our expertise, straightforwardness and dedication to quality means you receive an unparalleled service. To achieve top results, we draw on the best knowledge and skills available. Often this involves creating a joint team of your staff and our consultants. Throughout a project we work alongside your staff, supporting them while improving their own delivery skills. And when our part is done, we ensure you have what you need to sustain results.

MTM Consulting Ltd

We provide unique market insights, enabling you to realise your vision for the future. Our feasibility studies, supply and demand analyses, and stakeholder research are all designed to help you understand the potential of your market, where you stand against your competitors and what the market wants.

Nestor Advisors Ltd

Nestor Advisors is an ambitious London-based advisory firm focusing exclusively on corporate governance and organisational effectiveness. We are a pioneer and a leading firm in this market. We work with boards and senior management to improve decision making, organisation and controls. Our clients include international organisations, leading listed and private companies, investment funds, states, banks, development institutions, micro-finance and charities in the UK, Continental Europe, the Middle East, Africa, Latin America, and Asia.

Newton Europe

We are Newton. We're a team of the brightest and most curious minds with a fundamental belief that every organisation can be better. We crack some of the toughest business and

public sector challenges of the day. Not with reports or copy and paste thinking. But by pinpointing and implementing the changes that will make the biggest difference and then guaranteeing our fees against delivering measurable results. We never start out assuming we know the answer, but we're always certain we'll find it and see it through to the finish. By uncovering the data that means the most important decisions are made with facts, not opinions. By bringing together people who live and breathe delivering results. And by embedding in client organisations this same passion, self-belief and know-how to thrive on any challenge in the future. We demand better in everything we do. We think you should too.

Nexant Ltd

Nexant Energy & Chemicals Advisory is a multinational business with experienced industry professionals based in all key regions, providing services globally. For over 50 years, through a combination of our business and technical expertise, we have been enabling management teams, investors, and lenders to make better decisions. Clients can be assured of the expertise our staff bring to each engagement, and benefit from the key insights that we bring from the experience we've gained in over 50 years of advising the hydrocarbon sector.

Nous Group

Nous Group was established in 1999 with the aspiration of delivering bold and personalised consulting services with a team of expert and engaging people. We wanted to do work that made a substantial, positive contribution. Not just to our clients and their businesses, but also to the customers and communities they serve. It worked. We have enjoyed 20 years of uninterrupted growth to become an international management consultancy with over 400 people working across Australia, the UK and Canada.

Oaklin

All organisations must change to survive and flourish. We help our clients by providing the expertise, experience and good judgement they need to change at scale. Across a wide range of sectors and organisations, we have built deep functional experience in finance, HR and IT, as well as across procurement, communications and mergers and acquisitions. To this we add our established capabilities, our tool kits for delivering successful change, that enable us to deliver exceptional results regardless of the problem.

OC&C Strategy Consultants

What is the future of television? How much should we invest in emerging markets? What do I need to do to win with Generation Z? We answer the toughest questions facing businesses. We do rapid, high-impact projects for chief executives and boards looking for the best strategies. Answers to these questions require something beyond the ordinary and that is why at OC&C we strive to create an extraordinary firm that offers the best service to our clients and the best opportunities for our teams. As a result, over the last 30 years, we have grown to become a global strategy consultancy with 11 offices in 9 countries, serving leading companies and private equity houses around the world.

Ogilvy Consulting

We are the global strategy and innovation arm of the world's greatest creative network, The Ogilvy Group. At Ogilvy Consulting, we believe in the power of brand, customer experience, data and technology to transform businesses, and drive growth. In an era of great fragmentation, brands are the connective tissue for complex organizations and global economies. Strong customer-centric brands are proven to increase shareholder value and to drive market share, revenues and profits — futureproofing business performance.

Oliver & Ohlbaum Associates Ltd

O&O was founded by Mark Oliver & Victoria Flemington in 1995 and today is one of Europe's leading independent strategy advisories in the media, entertainment and sports. Our expert team of advisers work exclusively in the media, entertainment and sports sectors.

Oliver Wight

When you talk to Oliver Wight about improving your business, we'll assume you want results, not just better processes - things like increased revenues and margins and greater market share. If you have the ambition, it is possible to make improvements that truly transform the performance of your organization and create more fulfilling roles for the people within it. We believe this can only be delivered by your own people. So, unlike other consultancy firms, we transfer our knowledge to you; knowledge that comes from 50 years of working with some of the world's best-known companies.

Oliver Wyman

Oliver Wyman is a global leader in management consulting. With offices in 60 cities across 29 countries, Oliver Wyman combines deep industry knowledge with specialized expertise in strategy, operations, risk management, and organization transformation. The firm has more than 5,000 professionals around the world who work with clients to optimize their business, improve their operations and risk profile, and accelerate their organizational performance to seize the most attractive opportunities. Oliver Wyman is a global management consultancy with strong relationships in all corners of industry, government, and non-profit organizations. Clients bring us their greatest challenges. We assemble teams of experts to work on each part of these complex problems, and together we create breakthroughs that achieve amazing impact. Visit an Oliver Wyman office anywhere in the world and you will feel it: the buzz of people doing work that matters, with a sense of purpose. Our company comprises a diverse mix of talented people from varied backgrounds and areas of expertise who marshal creative thinking and analytical rigor. Our inclusive, collaborative, non-hierarchical culture allows new thinking to surface quickly. The best idea wins, and everybody is encouraged to contribute. This makes Oliver Wyman both an ideal adviser for organizations and an ideal place for exceptional people to realize their potential.

Orbit Partners

We help the best investors partner with the best advisors to successfully craft deals. Orbit Partners collaborates with most tier-1 investors across the globe. We partner in exclusivity with one fund only per deal situation. On each situation, our team researches and selects a bespoke group of advisors with high-impact potential on deal making. We give these advisors the opportunity to partner with the most effective investors on vetted deal situations.

Osterwald Rathbone & Partners

Osterwald Rathbone & Partners focuses on providing industry-led professional consulting advice to corporate entities & their legal representatives in a variety of situations, ranging from mergers & acquisitions through to policy & regulatory advice.

Oxera Consulting LLP

Oxera goes beyond rigorous analysis to argue each case based on a depth of quality thinking, an inherently innovative approach, deep and wide contextual understanding, and a direct presentation style.

P2 Consulting

P2 Consulting was started by a group of award winning consultants who recognised the opportunity to build a global consultancy firm that had clients' needs at its heart. We understand the challenges clients face – the pace of globalisation, technology change and increasing regulation – and the pressure they are under to respond to these changes rapidly and efficiently.

PA Consulting Group

An innovation and transformation consultancy, we believe in the power of ingenuity to build a positive human future in a technology driven world. We're different from other consultancies

because we spend our time combining innovative thinking and breakthrough technologies to progress further, faster. With 25 offices in 14 different countries, we're a truly global firm. And since partnering with The Carlyle Group – one of the world's most successful investors – we're seeing our international reach extend to more markets and business opportunities than ever before.

Partners in Performance

Partners in Performance is a global management consulting firm working hand-in-hand with its clients to deliver lasting impact. In the last four years, Partners in Performance has helped its clients achieve more than \$10 billion of validated, fully-implemented EBIT improvements, more than \$40 billion in capital reductions, and more than \$1.9 billion in procurement savings.

Plural Strategy

Plural is a strategy consultancy helping businesses to deliver transformational growth in some of the most dynamic sectors. Launched in 2014, our founding principle has been to create lasting impact for our clients through evidence-based decision making and close collaboration. Through our offices in London and New York we advise major corporates and Private Equity investors globally across the Information Industries. We operate in the centres of excellence of some of the most dynamic industries (information, data & analytics, digital marketing, media) which themselves are driving the transformation of the sectors they serve. The sectors we work in are undergoing accelerated change. Technology, data, content are converging, leading to new products, new business models, new competitors and new routes to market. This presents a considerable opportunity as well as challenges for businesses and their leadership teams. Plural Strategy was established to help clients tackle these challenges. Our approach combines a depth of expertise across our sectors with leading-edge analytical capabilities and proprietary data sources.

PMSI Strategy LLP

PMSI is a management consulting firm specialising in commercial due diligence (CDD), market intelligence and strategy consulting. We are also leaders in Advanced Analytics, via our partnership with sister company AlignAlytics. PMSI leverage sector experience, primary research and a tried-and-tested methodology to deliver powerful insights within short timescales. There is a high level of senior engagement on all projects, and we give a clear opinion rather than hiding behind caveats.

Pragma Consulting Limited

We empower positive impact. Pragma is the leading commercial advisor for investors and operators in airports and retail property.

Procure4 Limited

Procure4 is a team of Supply Chain and Procurement Management Consultants. We work with some of the UK's leading brands and provide expert support, advice and sourcing insight to deliver sustainable profit improvement. From raw materials to transport, ready meals to mobile phones and marketing services, Procure4 has consistently helped its clients deliver cost savings. People Powered Procurement is not just a snappy strapline. It brings alive our passionate belief in our 'One Team' approach, describing how people remain at the heart of everything we do. A specialist team offering a hardworking, supportive, energetic and fun working environment. We combine big business standards with small business flexibility and entrepreneurship.

Prophet

Prophet is a digitally powered, creatively inspired consultancy that helps our clients unlock uncommon growth in the face of disruption. We help our clients have the conviction to envision, fund and execute the coolest growth work on the planet. Prophet's combination of deep customer insights and pragmatic business acumen enables us to arrive at unique

solutions. That insight, coupled with bold, digitally-powered strategic execution gets our clients to the right ideas that are better expressed, better designed, better deployed and better experienced.

Proudfoot

Accelerated operational and digital transformation. Proudfoot works with leaders and their teams at all levels to design, implement and accelerate change. We focus on processes, results and people and deliver the company of the future.

Publicis Sapient

As a digital business transformation partner of choice, we've spent nearly three decades utilising the disruptive power of technology and ingenuity to help digitally enable our clients' business in their pursuit of next. We bring a startup mindset and agile methods to both established companies and the public sector to unlock value in ways that delight their customers and improve their operational effectiveness. Our approach to transformation is grounded in a view of both the company and the customers simultaneously, and a unique fusing of strategy and consulting, experience and engineering with an enduring culture of problem-solving creativity. In the space between next and now is how. And we believe that how you seize that space is everything.

PwC (Consulting)

We are in the business of transformation, known for our focus on and commitment to achieving results. We combine strategy, technology and management consulting expertise to help organisations succeed.

Q5

We are award-winning experts in organisation change, helping to build better businesses across the world. Q5 was born in 2009 as companies around the world faced the fallout of the worst financial crisis in generations. We believed we could offer something different to help global businesses respond more effectively to the challenges confronting them, with benefits that lasted beyond the four quarters of the financial year... into 'Q5'. From the beginning, we have provided our clients with expert analysis, created dramatic new strategies, overhauled struggling operations and made sure the right people were put in the right place. At the end of it all, deep in the Q5 DNA, was the assurance that each project would bring change that really sticks.

QuantSpark

Our interdisciplinary teams combine the best of strategy consultancy, computer science, data analysis, product development, and industry expertise. Together we deliver high-impact analysis and build mission-critical tools to support making smarter decisions.

QuantumBlack (part of McKinsey)

A McKinsey company. We harness data, analytics and design to give organisations a clear path to improve performance. When we combine our skills and approach with McKinsey & Company's knowledge and expertise, we equip clients with an incomparable level of competitiveness.

Redington Ltd

Our purpose here at Redington is to help make 100m people financially secure. It's an ambitious mission, and we're doing it once client at a time – from improving governance structures to designing investment strategies aligned with your objectives. We started in 2006 as a handful of consultants serving defined benefit pension schemes. Since then we've grown into a team of over 150 people. We've expanded our services to include manager research and tech to help our clients draw on Redington intelligence in their ongoing decision-making.

Research & Consulting Group

Research & Consulting Group (RCG) is a globally active management consulting group. We are primarily focused on major international companies in the steel, metals and mining industry. We work with our clients to - develop actionable strategies, - achieve sustainable performance improvements, and - transform their businesses to achieve targets and seize opportunities created by industry disruption. We work in all product categories, all regions of the world and in all stages of the value chain: from mining and raw materials, to production, processing and distribution.

RINA Ltd

With almost 160 years of experience across a wide range of industries, RINA is a multinational company that helps clients build strong, successful businesses. Through a global network of 3,900 talented professionals operating out of 200 offices in 70 countries, we support market operators across the entire lifecycle of their projects, whilst assisting them in renewing their products, technologies and services. Entrusting a project to us means being sure that everything will be taken care of, and our mindset allows us to apply a simple approach to complex situations.

Roland Berger Ltd

Founded in 1967, Roland Berger remains the only leading global consultancy firm with non-Anglo-Saxon roots. We are German by origin, European by nature and global by ambition, including a strong footprint in Asia and other geographies where we feel that we can truly make an impact. We have always strived for a different perspective in the field of consulting and business, and today we continue to constructively challenge standard patterns of thought and provide clients with new solutions to manage disruption and transformation. Our entrepreneurial spirit has shaped our growth and fuelled our outstanding achievements since the early days of the firm. In short, being a game changer is in our DNA. With nearly 50 years of continuous growth behind us and 2,400 employees working in 34 countries, we are one of the leading players in global top-management consulting and have successful operations in all major international markets. Through mutual trust and sustainable value added for our clients, we have become a longstanding advisor of major international industry and service companies as well as public institutions worldwide.

RPC Consulting

Top quality legal advice is a given. Delivering consistently for our clients is just as critical. We do that by building strong relationships, providing the best experience along the way. Only through long-term relationships can we truly understand a business from the inside out. And only through understanding a business inside out can we truly offer commercial value. Value that comes from knowing what really matters. Recognised as leaders in industries ranging from retail to insurance, technology to media, and well beyond, we have the expertise to handle bet-the-business litigation, complex regulatory challenges, transformational transactions and so much more. Globally.

RPS Group plc

Founded in 1970, RPS is a leading global professional services firm. We define, design and manage projects that create shared value to a complex, urbanising and resource-scarce world.

Sciteb

Sciteb is an innovative international strategy and search firm, working with clients in the UK, China and the USA. We operate in two related areas: strategy and search, united in our dedication to our clients and to special thinking.

Sevendots

CPG companies are facing the key challenge of lifting or accelerating their top line performance. Sevendots identifies concrete growth opportunities and makes them happen, fast.

Space Global

We are a strategy and innovation consultancy – relentlessly striving to help our clients grow their businesses. “Smart, fast and experienced” – that’s how clients describe our team. We are a team of strategy consultants, with diverse and international backgrounds, united by a common cause: creating value for our clients.

University of Cambridge Careers Service

University of Cambridge Careers Service

Springboard

Our diverse and exciting work combines engineering science theory with hands-on experimentation and prototype-building, in order to develop innovative and commercially-viable products for our growing base of multinational clients. Projects span any and all stages of the development process - from concept generation, through experimentation and design, to manufacture and product realisation. The technical subjects of our projects are highly varied, including: drug delivery; medical diagnostics; innovative consumer products; advanced materials for the biotech industry; and surgical and critical care technologies. Client relationship management and commercial awareness are also key to what we do. You will be involved in this from day one, presenting your own work to senior managers responsible for billion-dollar businesses.

Stantec

We Design With Community In Mind. Communities are fundamental. Whether around the corner or across the globe, they provide a foundation, a sense of place and of belonging. That's why at Stantec, we always design with community in mind. We care about the communities we serve—because they're our communities too. This allows us to assess what's needed and connect our expertise, to appreciate nuances and envision what's never been considered, to bring together diverse perspectives so we can collaborate toward a shared success. We're designers, engineers, scientists, and project managers, innovating together at the intersection of community, creativity, and client relationships. Balancing these priorities results in projects that advance the quality of life in communities across the globe.

Steer (formerly Steer Davies Gleave)

Working across cities, infrastructure and transport, Steer is a consultancy that combines commercial, economic, technical and planning expertise to find powerful answers to our clients' complex questions.

Strategy& (part of PwC)

Part of the PwC network. We measure our success by your success. The global market is defined by its complexity and fluidity. To shape your future you need to make bold moves, but, of course, that takes time. And money. And people. That's where we come in. Strategy& takes a bold and pragmatic approach to strategy. We help you see not only where you need to go, but also the choices you'll need to make to get there, so you can forge a clear path from today's potential to tomorrow's promise.

Stroud International

Stroud is an operations consulting firm committed to helping organisations dramatically improve by solving their toughest problems, most of which are conventionally believed to be impossible to solve. We don't write reports or recommendations, we work with our clients to deliver measurable bottom-line results. We work across a wide variety of industries (manufacturing, consumer packaged goods, mining, energy, and chemicals), and have a global presence with offices in London, Boston and Calgary. We are a small company with an entrepreneurial spirit and are growing rapidly over the next few years. A career with Stroud provides an unparalleled opportunity for those who share our values and ambition to make a significant impact from day one.

Sysdoc

At Sysdoc, we're enabling organisations and their people to work in a simpler smarter way. We work with organisations to transform their businesses and to build the skills and capability essential for the future of work. Applying our 30 year track record in process simplification, innovative learning, change management, and user experience, we lead organisations through digitally driven transformation and enable people to work in simpler, smarter ways.

Teneo Consulting

Teneo's UK team advises business leaders, enabling them to achieve goals faster by earning trust, navigating disruption and removing barriers.

The Berkeley Partnership

Founded in 1990, The Berkeley Partnership is an independent management consultancy. Based in London and New York, we work with many household names and global organisations helping them to develop strategies and transform their business. In doing so, we are often at the heart of them achieving their most ambitious goals.

Thought Provoking Consulting

We help Retailers and Brands reach their goals by combining our broad experience and a collaborative working approach. Based in the US and UK, TPC helps retailers solve their business and technology problems with agile consulting solutions. We aim to make complex challenges simpler through experience and pragmatism.

Transformation Nous

We founded Transformation Nous at the end of 2015. We are consultants from a global consulting firm who had dedicated their advisory careers to transforming healthcare providers and systems in the UK and internationally. Armed with extensive and real on the ground experience we set out to revolutionise the way consultants partner with health and social care organisations to deliver real change. At TN, we do not waste time recycling off-the-shelf answers. Instead we roll up our sleeves and work hand in hand with our clients to jointly identify issues, develop solutions, and drive change. We are sharp and structured thinkers with solid strategic, analytical, and operational backgrounds who believe that for transformations to succeed, every solution needs to be tailored-made to meet client needs and rigorously tested on the ground. Our experience has taught us that for any transformation to stick, staff across all levels of the organisation need to adopt the right attitudes and mindsets in order to drive desirable behaviours. As such, every engagement we take on, we spend a disproportionate amount of time, energy, and resources to drive cultural change.

Turnberry Consulting

Turnberry is a management consultancy providing development strategy advice across a range of varied and challenging projects. Our expertise is on specific project sectors, namely: Education; science and technology; and institutional; Sport, and in particular thoroughbred racing; Estate development; new communities; and suburban regeneration.

TWS Partners AG

TWS Partners is the only company globally which is exclusively and successfully using Nobel Prize-winning research results in the field of game theory to improve business performance.

Value Partners Management Consulting Ltd

Value Partners is a management consulting firm founded in Milan in 1993. The value created for clients, excellent international companies, in over twenty-five years has determined our rapid growth and has strengthened our brand's reputation worldwide. We were one of the first firms that realized the value of IT skills in order to offer clients the best service ever. We assist them from the definition of their strategy and business targets to the execution of their change management and digital transformation projects. Our drive for innovation, our client devotion and the ability to make the client's challenges our own represent Value Partners' hallmarks.

Vendigital

At Vendigital, we deliver data-led accelerated cost transformation. We achieve this by combining multi-disciplinary consulting expertise and our proprietary digital platform – through our Insights360 methodology – to generate and embed client-specific operational insights.

Voluntas Policy Advisory

Fundamentally changing how human potential is led and realized. Management Consultants by profession and Philosophers by heart.

Voyager Solutions

We are a fast-growing company that supports organisations along their journey of large-scale, back office transformation and business change. We provide a blend of traditional consulting, advisory and implementation resources – using leading-edge tools such as RPA.

Walsh Associates

Our highly specialised team of engineers and consultants delivers a range of specialisms and services across the UK and at specific international locations. Structural Engineering remains at our core but we have extensive expertise in civil engineering enabling us to provide a comprehensive engineering service complete with multi-disciplinary consultants.

White Space Strategy

We use proprietary research and analytics to identify market 'white space' and unlock growth opportunities. We show you how to make growth happen, at pace. Our founders are entrepreneurs and understand what it takes to grow businesses effectively. Spare capacity is used to support inspirational charities and ambitious start-ups. We care about creating strategies that are sustainable and build towards a better future.

ZS

ZS is a professional services firm that works side by side with companies to help develop and deliver products that drive customer value and company results. From R&D to portfolio strategy, customer insights, marketing and sales strategy, operations and technology, we leverage our deep industry expertise and leading-edge analytics to create solutions that work in the real world. Our most valuable asset is our people, a fact that's reflected in our values-driven organization in which new perspectives are integral and new ideas are celebrated. ZSers are passionately committed to helping companies and their customers thrive. In industries ranging from healthcare and life sciences, to high-tech, financial services, travel and transportation, and beyond. We work under the assumption that there could be a better solution, and we always challenge ourselves to not be satisfied until we find it. When we search for talent, we look for people who aren't afraid to step outside the box to find the best path forward. People who thrive at ZS choose to operate beyond the traditional way of doing things to benefit both their clients and their careers. They explore new opportunities and chart their own professional futures. At ZS, hierarchy isn't a barrier to collaboration. Whether it's your first day or you've been working here for years, your expertise matters and it's never too early to make an impact. Our core values are: Treat people right; Do the right thing; Get it right.

BritainThinks

We provide our clients with the insight they need to make better decisions. But we don't stop at insight. We give you the strategic counsel you need to achieve your goals. Our advice is always delivered with honesty and integrity – even when it is hard to hear. Every challenge is unique. So, we approach each with the fresh thinking it deserves. Working collaboratively with our clients, we build strong and lasting relationships.

Decision Technology Ltd

Decision Technology is a research consultancy which provides bespoke services to commercial clients based on the statistical modelling of customer data, field surveys or online experiments. The company specialises in helping businesses and policymakers to understand and manage consumer decision making, drawing on quantitative disciplines such as experimental psychology, cognitive/behavioural science, statistics, economics and finance.

Energy Aspects

Energy Aspects is an independent research consultancy specialising in global energy markets. Our team of experienced analysts have an industry-wide reputation for producing relevant, insightful and timely commentary. We analyse market fundamentals and forecast price movements. We develop in-depth research by combining our extensive data models with our network of high-level industry contacts and our forward-looking views on all major market trends.

Scientific & Technical consulting

Including software, computing, I.T

Adelard LLP

Adelard exists to provide independent and technically sound advice on how to engineer and assure the trustworthiness of computer-based systems. We are an influential, London based consultancy and product company working in the nuclear, medical, defence, finance, air traffic control and rail sectors and in critical infrastructure protection. Our team supports the delivery of several critical projects. Our key clients include large multinationals as well as government agencies and other leading national and international infrastructure providers.

Appian

At Appian, what we do is exactly who we are: our unique low-code software is a product of our unique people. We are building a community of generosity, innovation, and free-thinking to bring the best ideas out of the best team. Appian employees, or "Appianites" (as we call them), are passionate about challenging the status quo and improving the world through great software. We work in small, agile and collaborative teams who embody generosity of spirit and have an insatiable desire to learn. Our approach gives individuals greater ownership and input into decisions and makes for a more efficient and happier workplace.

BearingPoint Ltd

We deliver management and technology consulting with a difference. We drive change in our clients' businesses by creating customized solutions on a personal basis.

BJSS

We're the leading technology and engineering consultancy for business. Trusted by our clients, we collaborate to deliver complex, innovative technology, engineering and industry solutions that millions of people use every day.

We make digital transformation and user engagement a reality. Passionate about design, we engineer world-class technology solutions embracing strategy, software, cloud, data, AI and Automation. Our teams of talented technologists and consultants use our Enterprise Agile approach to build dynamic technology platforms that scale and accelerate time to value.

Cambridge Consultants

Cambridge Consultants is a leading professional services company in the Cambridge hi-tech cluster. We operate globally, with particular focus in Europe, America and Asia. We specialise in helping our clients achieve the seemingly impossible, through the development of breakthrough technology-based products and services. With a 60 year track record of world firsts, we tackle the world's most difficult problems - from the world's most advanced grocery fulfilment system, through mission-critical global satellite communications systems, to ultra-miniature medical implants. The skills and experience of our 800 designers, engineers, scientists and mathematicians combine to create a melting pot of innovation, which creates a remarkably stimulating and diverse working environment.

CamIn (Cambridge Innovation Consulting)

CamIn is an expert consulting firm dedicated to helping companies capitalise on game-changing technologies through world-class technology and industry expertise. At CamIn, our passion and expertise for cutting through the technology hype is unleashing new game-changing opportunities and solving technology challenges for ambitious organisations all over the world, with a portfolio of success stories. With ten years of global innovation, we are defining a new way forward for emerging technology investment and strategic planning. It is all about identifying low-hanging fruit, not over-hyped technologies.

Capgemini Invent

Capgemini Invent combines strategy, technology, data science and creative design to help clients harness new technologies to overcome their greatest business challenges.

Chartwell Consulting

Chartwell Consulting is a rapidly growing Operations Consulting firm, combining structured methodology, client engagement and problem solving to consistently deliver 20-50% increases in manufacturing performance within 3 to 9 months. A different kind of Consultancy: Hidden Opportunity is in every organisation. We help them obtain it. We specialise in the manufacturing sector, working daily with on-site teams comprising of all levels of an organisation, from operators to global directors, to overcome the hardest challenges facing industry. Our knowledge and experience are derived from over 250 projects, yet we constantly seek to learn, develop and improve. Chartwell is a results-based organisation, not content with simply leaving behind a report. We are proud of our Results Guarantee: a promise to our clients that without results, we do not ask for a fee.

DreamsAi

DreamsAI is a project-based company that builds fully automated software. We focus in reducing company overhead by replacing repetitive tasks with software-driven "robot". The robots are capable of emulating and integrating the actions of a human by interacting within digital systems to execute scheduled business process.

Innovia Technology

Innovia is a Cambridge-based innovation consultancy. We work in multidisciplinary teams to create exciting new products and services for some of the largest companies in the world. Clients like Procter & Gamble, LEGO, Kraft Heinz, and Jaguar Land Rover trust us to help them invent the future. We are looking for creative people with backgrounds in physics, engineering, life sciences, chemistry, materials science, and behavioural science who want to apply knowledge from their degrees to real-world challenges in a collaborative environment. The work we do is remarkably varied. You'll find yourself working as part of a multidisciplinary project team, using your discipline-specific knowledge and desk-based research skills to find innovative solutions for clients across industries such as medical, energy, food, cosmetics, and apparel - all while maintaining a great work-life balance. We offer a comprehensive training programme to all new recruits to make it easier to bridge the gap between studying and consultancy.

Oakdene Hollins Ltd

We are experts in science-led research and value-driven consulting for the circular economy. We work with private and public sectors to embed sustainable practices which improve environmental impacts, business efficiency and profitability. Our strategic advice is backed by sound data analysis and a deep understanding of our clients' needs.

Oxford Insights

We are a young consultancy who work with governments and organisations worldwide to help them get the best out of technology. We specialise in areas including artificial intelligence, digital transformation, leadership development, evidence-based policy and technology startups.

Rapid Innovation Group (RIG)

Commercialising Sustainable Technologies. Rapid Innovation Group is a commercialisation firm focused on high impact industrial technologies that have a global application where defensibility is primarily based on the strength of their intellectual property.

Science Group

Science Group is a leading science-led consulting and product development company, part of the hi-tech cluster and a global operator. We have well-known, high-profile clients and we help them exploit the promises of science & technology to solve seemingly intractable problems. This means we work on truly breakthrough products which could change our world, identify new markets/technologies for our clients, help them ensure their products meet exacting regulatory requirements or map out a go-to-market strategy. In the last year we've undertaken projects that included helping the UK government address the Covid-19 pandemic through the rapid development of an innovative ventilator; reducing the need for excessive pesticide usage by developing advanced precision spraying systems for use in agriculture; helping industry meet the increasing demand for hand sanitisers and disinfectants through assisting with regulatory approvals; and working with food & beverage companies to explore the alternatives to plastics for packaging. Our people are mainly scientists and engineers, people like you. We work in open, stimulating environments, we all seek to make a difference in whatever we do and we support each other. One of the great things about Science Group, is that we are big enough to offer structure and career development options but small enough that if you make a difference, you'll be noticed.

Siemens Management Consulting

We are the global management consultancy for one of the world's most innovative engineering and technology companies. We drive the digital transformation forward and provide Siemens and numerous other clients in the technology sector with consulting services, ranging from strategy through to implementation.

TNG Technology Consulting GmbH

TNG Technology Consulting is a value-based consulting partnership focused on high end information technology. We support our customers with state-of-the-art tools and innovative ideas. Our mission is to analyze and solve the strategic or routine IT problems our customers have. Our people have the freedom to grow and the responsibility to do so. We believe that a rational cooperation between ourselves and our customers is both achievable and mutually beneficial.

TRL Ltd

We are an independent company of engineers, consultants and technical specialists.

TTP Plc

TTP is an independent technology company where scientists and engineers collaborate to invent, design and develop new products and technologies. With a 30-year history of invention, our multidisciplinary teams are able to deliver across the scope of a project, from research through to ideas, design, engineering and manufacture. TTP's state-of-the-art technical facilities are part of Europe's largest technology hub in Cambridge, UK. Here, we work across a wide spectrum of industries - including health, telecoms, industrials and consumer - to create breakthrough solutions that bring strong commercial value to clients and the benefits of technology to all.

University of Cambridge Careers Service
