

ECONOMICS FAIR 2022

CAREERS
SERVICE

Welcome!

The **Economics Fair** offers Cambridge students, researchers and alumni the opportunity to explore the variety of different career options in the economic sector.

Whether you are in the exploratory stages or know precisely what you want from your future career, this fair allows you to meet a range of recruiters, keen to attract Cambridge students and graduates to their teams. You will develop insights into and compare different company cultures, working practices and career paths to discover your best fit.

In this brochure, you'll find an overview of the organisations attending the In-Person Careers Fair on Thursday 27 October 13:00 – 17:00 at the **Department of Economics, Sidgwick Avenue, Cambridge, CB3 9DA**.

To make the most of the fair:

- Watch [Making the most of Careers Fairs](#)
- Read: [Common questions & advice on in-person Careers Fairs – uncamcareers blog \(edublogs.org\)](#)
- Read: [5 reasons to attend virtual careers fairs to complement your in-person networking with employers](#)

You can also talk to a Careers Consultant at our stand at the fair or come and see us in the Student Services Centre. Book an appointment on [Handshake](#).

BRATTLE

Brattle is a privately held, global economics consultancy. Clients – including corporations, law firms, and government agencies – rely on our experts' sophisticated capabilities in economic modeling, econometrics, and financial analysis to solve their most challenging problems. Our work typically involves issues related to finance and energy, as well as litigation and regulatory support, across a broad range of industries.

The Brattle Group answers complex economic, finance, and regulatory questions for corporations, law firms, and governments around the world. We are distinguished by the clarity of our insights and the credibility of our experts, which include leading international academics and industry specialists. Brattle has over 400 talented professionals across three continents. For more information, please visit brattle.com.

As a growing firm with offices in 13 major metropolitan centers in North America, Europe, and Asia-Pacific, we are always looking for bright and energetic people to join our team.

<http://brattle.com/>

CEPA

CEPA is an economic consultancy firm, working for both private and public sector clients where economics, finance and public policy overlap.

Our team help clients apply the more rigorous, empirically tested and innovative principles of economic, finance, regulatory systems, and public policy to solving complex challenges. We are recognised internationally as a provider of advice to private companies, investors, governments, regulatory agencies and donors throughout the world.

To date we have worked on close to 1,000 projects in more than 50 countries, with our analysis drawing upon expertise and insight from across CEPA's areas of expertise and sector offerings.

We are a people-based business and rely on our talented staff to help us successfully deliver projects and make the company a great place to work. Join our team to make a difference and enjoy a fulfilling career in economic consultancy.

Nature of the organisation

We work on issues across a range of sectors and countries. To be able to offer practical solutions to complex challenges, we bring together staff members with a diverse range of skills and experience. We tailor the project teams to best meet the needs of our client, whether public or private sector. Within these project teams, we work collaboratively and creatively to meet the high standards we set ourselves.

We relish an intellectual challenge. Taking complicated data and applying sound economic theory tempered by judgement and skill, we turn it into data that aids positive decision-making by our client and society.

Our work takes us to clients around the world, but we operate from offices in London and Sydney.

<http://cepa.co.uk>

CHARLES RIVER ASSOCIATES

Charles River Associates is a leading global consulting firm that offers economic, financial, and business management expertise to major law firms, corporations, accounting firms, and governments.

In addition to consulting careers, we offer rewarding opportunities to corporate and administrative professionals in the areas of finance, human resources, information technology, marketing, and more. CRA's team shares a common aim—to deliver high quality results to our clients while collaborating and learning from each other.

We are a company that values initiative, integrity, and open, inquisitive minds, and that offers an environment where the challenges are interesting and the opportunities diverse. If you're interested in learning more about careers with Charles River Associates or know someone who would be a fit, view our career site and open roles at <http://crai.com/careers>.

<http://www.crai.com>

COMPASS LEXECON

We are one of the world's leading economic consulting firms. In Europe, we provide expert economic advice on competition, damages, intellectual property, and regulatory matters.

Our success stems from our ability to develop and apply economic theories, support them with robust empirical analysis, and present our findings in a clear and compelling manner.

ECONOMIC INSIGHT

Economic Insight is a leading economics consultancy. We use microeconomics, statistics and financial analysis to help our clients in the areas of competition law, economic regulation, litigation, business strategy, and public policy.

<https://www.economic-insight.com/>

FRONTIER ECONOMICS

Frontier Economics is an economics consultancy that tackles the big questions facing governments, businesses and society. We support our clients on some of the most interesting, topical and high-profile issues across these areas. We advise across sectors and countries and we are one of the largest economic consultancies in Europe with more than 250 economists based in our offices in Brussels, Berlin, Cologne, Dublin, London, Paris and Madrid. Owned entirely by our staff, our business attracts the best people and the most interesting work. We go beyond the numbers to find out what's really going on. Our clients enjoy objective advice, clearly expressed. With our help, they make better decisions and get better results.

Difference is what drives debate, changes perspectives and broadens horizons. We see it as a superpower that all our people have. Empowering everyone to bring their full selves to work is core to us unlocking individual potential. We are determined that everyone has an equal chance to join us and progress their career with Frontier. We care about creating an inclusive atmosphere and are committed to promoting diversity and inclusion in all its forms.

GENESIS ANALYTICS

Genesis Analytics is a global African firm that has worked in more than 91 countries across the world. Our roots are firmly in Africa, having worked in 43 countries on the continent.

Our purpose as a firm is to unlock value through seeking solutions with our clients. The foundation of our distinctive delivery are the technical skills and deep sector knowledge we have developed through our work in the area between the market and the state.

We have expertise in behavioural sciences, competition economics and regulation, the digital economy, economic development, economic impact assessment, financial services strategy, human development, monitoring, evaluation and learning, public health and financing, shared value and corporate impact, as well as youth employment. Some of our best work has been through leveraging our complementary areas of expertise to find fresh solutions. Our goal is to recruit and build an exceptional cadre of professionals who are passionate about unlocking value on the continent. Successful candidates are placed into a niche practice area that best suits their skill set, interests and personal capability. We recruit at both a graduate (honours/masters) and experienced hire level. Click on the link below to watch the founder and Chair of the firm, Stephan Malherbe, give a brief introduction to Genesis: <https://youtu.be/DxN8XTVn3QA> More videos about what it is like to work for Genesis found on the careers page of our website and below: - <https://youtu.be/mEdHbsbH0YU> - <https://youtu.be/5q5cjFZyuAk> - <https://youtu.be/sbeAlFhNy1I> - <https://youtu.be/q-zlqsgmHb8> - <https://youtu.be/jbVj52Qzwd4>

INNOVIA TECHNOLOGY

Innovia Technology is looking for creative, adaptable, and strategic thinkers with a background in economics or business to become Innovation Consultants and change the world for good through front-end innovation: working on the very start of the next new thing. We are a friendly consultancy based in Cambridge with a focus on work-life balance. We work in multidisciplinary teams to understand, create and problem-solve for global clients like Procter & Gamble, LEGO, KraftHeinz and Jaguar Land Rover.

Our approach is holistic – we bring together diverse capabilities to gain creative insights. This means that you'd work together with experts in organic chemistry, psychology, theoretical physics, microbiology, industrial design, mechanical engineering, veterinary medicine, public health - and many other fields. If you want to apply the fundamental economic models and principles you've learned to as many different contexts as possible, value collaborative team work, are curious about science and technology, and would enjoy presenting your ideas to clients - our opportunities in business strategy may be right for you. Both consultants and interns work on projects across multiple industries from energy, to food, medical devices and consumer goods - allowing you to expand your expertise to engage with a broad range of complex technical problems.

Our roles will be different in several respects from a traditional role in business or management consultancy: greater variety of projects and sectors, stronger focus on early-stage innovation and creativity, better work-life balance, and a wider range of development tracks available. We provide comprehensive training programmes and don't expect you to have had any experience in consulting or innovation before.

INSTITUTE FOR FISCAL STUDIES

IFS is Europe's leading centre of microeconomic policy research, established as an authoritative commentator on the public finances, tax and welfare policy, tax law, education, inequality and poverty, pensions, productivity and innovation, consumer behaviour and, more recently, the evaluation of policies designed to promote development in poorer countries.

It is a politically independent registered charity aiming to bridge the gap between policymakers and academics.

<http://www.ifs.org.uk>

LONDON ECONOMICS

London Economics is one of Europe's leading specialist policy and economics consultancies. LE advises clients in both the public and private sectors on economic and financial analysis, policy development and evaluation, business strategy, and regulatory and competition policy.

London Economics prides itself on the international nature of our work and our staff. We firmly believe that our staff should reflect the diversity of the city we are located in and the countries in which we provide services.

Therefore, we actively welcome applications for all positions from individuals who share our core vision and beliefs. If you are smart, hard working and want to have a positive influence on society, then we would like to hear from you.

LSEG (LONDON STOCK EXCHANGE GROUP)

LSEG (London Stock Exchange Group) is more than a diversified global financial markets infrastructure and data business. We are dedicated, open-access partners with a commitment to excellence in delivering the services our customers expect from us. With extensive experience, deep knowledge and worldwide presence across financial markets, we enable businesses and economies around the world to fund innovation, manage risk and create jobs. It's how we've contributed to supporting the financial stability and growth of communities and economies globally for more than 300 years.

The breadth and impact of our operations is mirrored by the people who work for us. We are 25,000 people in 70 countries, united by a common culture and purpose. From our headquarters in the United Kingdom our geographic footprint now extends from India to the United States, Poland to Costa Rica. Our diversity reflects that of our customers, as well as the many communities in which we operate.

As we continue to expand and diversify, we offer you the opportunity to make a significant impact by helping shape the future of LSEG's dynamic global business. You will have direct exposure to the exciting developments and innovations in our finance and technology teams. We are looking for dedicated, ambitious graduates to partner with us as we grow.

We welcome applications from problem solvers who are willing to challenge the status quo and will thrive in a team environment in supporting and shaping financial markets. If this sounds like you, we invite you to explore our graduate and intern opportunities across business and technology.

<https://www.lseg.com/careers>

NATIONAL FOUNDATION FOR EDUCATIONAL RESEARCH

We use evidence to inform policy and practice to improve education.

We know the lives of children and young people worldwide are inextricably linked to the amount and quality of education they receive. At NFER, our mission is to improve outcomes for future generations everywhere and to support positive change across education systems worldwide.

We do this by creating and sharing research evidence and insights on education policy and practice, informing policymakers and other key decision makers, and strengthening practice in the classroom.

<http://www.nfer.ac.uk/careers>

NERA ECONOMIC CONSULTING

NERA Economic Consulting (<http://www.nera.com/>) is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For half a century, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. We bring academic rigor, objectivity, and real world industry experience to bear on issues arising from competition, regulation, public policy, strategy, finance, and litigation.

NERA's clients value our ability to apply and communicate state-of-the-art approaches clearly and convincingly, our commitment to deliver unbiased findings, and our reputation for quality and independence. Our clients rely on the integrity and skills of our unparalleled team of economists and other experts backed by the resources and reliability of one of the world's largest economic consultancies. With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.

<https://www.nera.com/>

NEWTON EUROPE

We are Newton.

We're a team of the brightest and most curious minds with a fundamental belief that every organisation can be better. We crack some of the toughest business and public sector challenges of the day. Not with reports or copy and paste thinking. But by pinpointing and implementing the changes that will make the biggest difference – and then guaranteeing our fees against delivering measurable results.

We never start out assuming we know the answer, but we're always certain we'll find it and see it through to the finish. By uncovering the data that means the most important decisions are made with facts, not opinions. By bringing together people who live and breathe delivering results. And by embedding in client organisations this same passion, self-belief and know-how to thrive on any challenge in the future. We demand better in everything we do. We think you should too.

<https://www.newtoneurope.com/careers/graduates>

RBB ECONOMICS

Economists at RBB are recognised as being among the very best in the world. We maintain that position by developing the skills of our staff and RBB is recognised as being the leader in nurturing future talent in this field.

Our multinational, multilingual team of experts believes that, when applying economics, they need to take into account the complexities of real-world markets rather than merely rely on theoretical models.

As a result, our approach is more hands-on, facts-based and less academic than many of our competitors. Our analysis is rigorous and authoritative, but always grounded in practical realities. The work at RBB is stimulating, challenging and rewarding.

And because we focus solely on competition economics, we deal exclusively with matters that are of great significance to our clients. This is why we deliberately cultivate a working environment in all our offices that combines mutual support and informality with professionalism, dedication and self-motivation.

You'll get all the support you need and gain a wide range of invaluable, career-enhancing skills. These include the application of economic theory and econometrics to real-world scenarios, drafting expert witness reports, oral advocacy and client relationship management.

We enable on-the-job learning and development supplemented by more formal training where appropriate. We also provide funding for specialist courses and secondments to RBB offices around the world. And from time to time we sponsor MSc studies to help employees deepen their knowledge and skills.
